MARIETTA SEMBRICH.

She is the Greatest Operatic Novelty in Europe.

So Says Henry Abbey, Who has Just Returned from the Old World—A Right Soprano Voice, with a Marvelous Range—Henry Irving—Mary Anderson Triumphant.

By Telegraph to the Post-Dispatch.

NEW YORK, September 14.—Mr. Henry E. Abbey arrived in the city yesterday by the City of Rome. He was seen at the Grand Opera House last night, in the office. After a few general remarks he said:

"Mme. Marietta Sembrich, I believe, is the greatest operatic novelty in Europe. She is a light soprano, with a brilliant voice, of marvellous range and extraordinary quality. Wherever she has sung she has produced a profound impression. In fact, after hearing everything there is in Europe, I came to the conclusion that she was by all odds the greatest singer now before the public. She

REMINDS ONE OF PATTI

in the freshness and volubility of her voice, and of DiMurska in her range, and Gerster in the flexibility and fluency of her tones."

"Is it true that Lucca is coming over this season?"

"No, it is not true. I saw Lucca, and she laughed at the story. She is engaged to sing in Vienna this winter."

"But is it certain that Patti is coming?"

"Well, I do not know, but I think very likely she will come."

Mr. Abbey spoke very confidently of being able to produce Italian opera as it has never been given here. He said: "Everything that money and enterprise can do has been done to put it on the stage with the best talent and the very richest accessories.

THE REPORTOIRE IS FRESH,

including Ambrose Thomas' "Amlette" with the original score restored, Campanini singing the part of Amletto (it was sung here before with a baritone in the part), and Sembrich in the role of Ophelia. Rehearsals will probably commence about the first of October at the Grand Opera House.

Concerning the engagement of Mr. Henry Irving, Mr. Abbey spoke with easy confidence. Mr. Irving will open here in "The Bells," and the next night, and during the week, will play Wills' "Charles I." With regard to the rumors that there was some kind of an understanding between himself and Mr. Mapleson, Mr. Abbey said the idea was an absurdity. He had not seen Mr. Mapleson. He did not think that Mr. Mapleson started such a story, and he could see no motive for it.

"How about Mary Anderson's appearance in London?"

"Well, I was there on the first night, and if you want my opinion, it is that it was

THE MOST TRIUMPHANT THEATRICAL SUCCESS

I ever saw. After the first act of 'Ingomar' she captured her audience, and I do not recall such another scene of enthusiasm in my theatrical experience. During the first act she was a little nervous and spoke at times inaudible. This led some one to call out, 'Speak louder, Mary.' She looked up in the direction the voice came, and then deliberately raised her voice to a new pitch, and kept it there. This exhibition of nerve won her right. She was recalled three times, and the assemblage cheered her to the echo. I went into her dressing room shortly after to compliment her on her pluck and coolness, and she told me she never was so frightened in her life."

TRAITOR TIFFT.

How a New York Farmer Betrayed a Friend's Trust.

By Telegraph to the Post-Dispatch.

ELMIRA, September 14.—In 1864 Howland Evans of the town of Veteran, Chemung County, enlisted in the army, receiving a bounty of $700. He left a wife and three children at home. Reuben Tifft, a highly respected and well-to-do farmer, lived near to Evans, and the latter had frequently been employed by him. Evans remitted the $700 bounty and $192 besides to Tifft to hold for him until his return from the army. Tifft's wife died about the time that Evans enlisted. When Evans returned home at the close of the war he found that

HIS WIFE HAD BEEN DIVORCED

from him and had married Tifft. The three children were with her, and all of Evans' household goods and other property had been removed to Tifft's farm. Evans was unable to recover either his children, his bounty money or his property. Some time ago he brought suit against Tifft to recover the money he sent him from the army, and the value of the property taken at the time Mrs. Evans married him. The case was referred to A. E. A. Baxter, and the hearing has just ended at Horseheads. Tifft acknowledges having received the $700 bounty money from Evans, but he presents a claim against the latter for boarding his children, after having married the mother, and refuses to give

THE FATHER CHARGE OF THEM.

Tifft also claims that a portion of the money was due him for payment for a piece of land which he had deeded to Mrs. Evans, at the alleged request of Evans. It appears in evidence that Tifft did deed a house and twelve acres of land to Mrs. Evans. She went to live with Tifft immediately afterwards. The divorce not having yet been obtained, she sold $100 worth of timber off the place, and subsequently disposed of the property for $500, which money she gave to Tifft. Referee Baxter has not made his decision in the case public, but it is understood that judgment will be given to Evans for the full amount of his claim, with interest and costs.

Infanticide at Shelbyville—No Water at Decatur.

SHELBYVILLE, September 14.—Yesterday the Coroner held an inquest on the body of the one day old child of Lucinda Quigley, and found that it came to its death by violence at the hands, it is supposed, of Miss Quigley's mother. The child was illegitimate, and Mrs. Quigley was so incensed over her daughter's indiscretion that she threatened to kill the result. Mrs. Quigley will be arrested to-day.

KURTZ NOT INSANE.

Allentown's Prospective Groom Only a Little Nervous.

By Telegraph to the Post-Dispatch.

ALLENTOWN, PA., September 14.—The silence maintained by the local papers concerning the postponement of the Kurtz-Longaker wedding, which, since Monday, has been the leading topic of conversation in all circles, has at length been broken. The marriage was to have taken place this evening, and extensive preparations were in progress when cards were sent out recalling the invitations. The friends of Kurtz say that early last week he was overcome by an uncontrollable feeling of apprehension for the future. Until Friday he kept this feeling to himself, and then

HE CONFIDED HIS CONDITION

to a friend. He then went to Philadelphia and consulted with his father, who came to Allentown on Saturday night and revealed the state of his son's mind to Judge Longaker, the father of the expectant bride. Young Kurtz professed to have the most unbounded admiration and affection for the lady and had not one word of fault to find with her, but still a strange feeling possessed him that the union would not be a happy one and that something would happen to separate them. When this state of feeling was made known to the Judge the suspicion of insanity flashed across his mind. He then learned enough to believe that a possibility of inherited insanity existed, and there was a probability of

A MORE ALARMING DEVELOPMENT

in the future. He, for this reason alone, announced that under no circumstances could the marriage take place. On Monday morning Mr. Kurtz was taken to Philadelphia by his father, and has been at the parental home ever since, utterly prostrated. The doctors ascribe the malady to nervous prostration rather than insanity. Miss Longaker, in the meantime, has been confined to her room, the object of deep solicitude on the part of her friends. Her condition has grown more favorable. The families have been in daily consultation over their misfortune, and the most cordial relations are existing between them.

SAUCE FOR SULLIVAN.

Mr. Jem Mace will Match a New Man Against the Champion.

By Telegraph to the Post-Dispatch.

BOSTON, September 14.—Jimmy Kelley, the pugilist, who says he has fought seventeen hard-glove fights and has never yet been worsted, said that he knew that there was a rod in pickle for Sullivan, and that Mace was the man who would manage the affair. He says that Mace had now in hand a man who, it is thought, would before long make a big name.

HIS NAME IS BARRON,

and he hails from Birmingham, England. He weighs 185 pounds, is tall, raw-boned, and a perfect terror in a fight. His method is equally as quick and fierce as Sullivan's. He whipped Donovan easily, and sometime ago Sullivan found difficulty in stopping Donovan. When John L. Sullivan was called upon in relation to the meeting which it is said is being arranged between him and Jem Mace the champion said:

"If Jem Mace or any other man wants to spar with me he knows where to find me.

I AM A BUSINESS MAN,

and have a regular place of business. I think there is a great deal of humbug in all this newspaper talk about fighting, and I don't propose to allow any man to make money or reputation at my expense if I can help it."

Sullivan's intimate friends are confident that there will soon be a meeting at Madison Square Garden, New York, between Sullivan and Mace. Mace wants to arrange for a simple exhibition, but Sullivan will never agree to that. He will go in to win, and if the "Gypsy" faces him he must prepare for hard knocks.

LANGTRY IN PARIS.

The Figaro Indulges in Bad Logic—Under Worth's Guidance.

By Telegraph to the Post-Dispatch.

PARIS, September 14.—Paris in general and the Champs Elysees in particular are enlivened by the advent of Mrs. Langtry, whom the Figaro has somewhat illogically christened "the American Sarah Bernhardt," and adds: "Through the medium of Messrs. John Arthur & Co., the house agents, Mrs. Langtry has engaged for a month a charming suite of apartments in the Rue de Bassano. She has brought her horses and carriages from England with her, and has come to Paris for rest and for dresses. She proposes visiting each and every Paris theater in turn, and is determined not to let the grass grow under her feet. She is here to study and observe, but not to criticise. It is believed she is about to confide her histrionic talents to the tutelage of Got & Coquetin, just as she has already intrusted her personal charms to the guidance of Worth."

SHEEHAN'S SUIT.

The Result of an Atlanta Man's Bad Heart.

Beating and Choking His Wife and Blacking the Eyes of His Grown Daughters—Mrs. Sheehan can Put Up with It no Longer—Abstract of Her Divorce Petition.

By Telegraph to the Post-Dispatch.

ATLANTA, GA., September 14.—Society in Atlanta has been stirred up by the filing of a suit for divorce by Mrs. Elizabeth Sheehan against her husband, Cornelius Sheehan. Mr. Sheehan is worth $100,000, owning nearly $70,000 in Atlanta in real estate. He was married to his wife, a Miss Harrison, in Putnam county, Ga., in 1855, and nine children have been born to them. These children, especially the young ladies of the family, constitute an interesting group. The elder girls have received a liberal education, and came forth from the Girls' High School with distinguished honors, two of them, Misses Mollie and Hannah, being upon the teachers' roll of the public school system. In the petition for a divorce, which Mrs. Sheehan has filed the causes moving her to take the step are very eloquently set forth. The recitals are specific and much too elaborate to be printed verbatim. She alleges that for some ten years past the

CRUEL AND INHUMAN TREATMENT

of herself by her husband has been continuous and malicious. She avers that she has been a dutiful and faithful wife and that he has no just reason to be offended with her, and therefore his cruel treatment is without cause and wholly attributable to malice and a bad heart. The cruel treatment is alleged to have consisted of beating her in the face and upon various portions of her body, inflicting painful and serious bruises, contusions and wounds. She also alleges that his favorite method of assaulting her was by choking her in a most violent manner, and further avers that for some years she has been compelled to live apart from him in the house and to refuse his companionship. She was forced to avoid him as the only means of escaping his inhuman and causeless assaults. She says that for a long period, continuing up to the time of the filing of the petition, Mr. Sheehan

FORBADE HER TO APPEAR

at the family board and take her meals while he was present. All these matters are set forth in most painful terms. Mrs. Sheehan also charges her husband with having causelessly and cruelly, during many years, repeatedly attacked his grown daughters, Misses Mollie, Hannah and Nora, and inflicted upon them painful injuries. Among these acts are recounted frequent assaults upon Miss Mollie, whereby her eyes, face and body were so bruised as to disfigure and disable her. She was husbanded, her mother says, by being compelled to appear before her school and the public with black and bruised features, the result of one of the assaults of her father. In like manner Misses Hannah and Nora have been frequent victims of his caprice and rage, and have been mortified by the exposure of their maltreatment to the neighbors and the public.

ON ACCOUNT OF ALL THESE

charges Mrs. Sheehan prays for a divorce from her husband and for such a division of the property of the defendant as will give her an adequate support and provide for the maintenance and education of their children, the custody of whom she seeks. A schedule of the property, filed with the petition, names buildings in the city to the amount of over $66,000. The attorneys for Mrs. Sheehan are Judge W. F. Wright and Gen. Gartrell. The case has excited very general interest.

KERWIN RESIGNS.

Startling Charges Made by the Vice-President of the Police Board.

The Gamblers and Politicians Have Captured the Department.

A Bitter Fight is Being Made Against Chief Campbell and Faulkner, and Commissioner Kerwin Would Rather Be in H—ll Than in the Police Board—His Resignation Accepted by the Governor.

A private telegram was received this morning from Jefferson City announcing that Daniel W. Kerwin, Vice-President of the Board of Police Commissioners, had tendered his resignation to the Governor, and that it had been accepted. The information was only semi-official, but the probability of its truth was accepted by the few in possession of it. That Mr. Kerwin had taken the step, without consultation with his colleagues, for that he had a POST-DISPATCH reporter soon ascertained from the lips of the Commissioner himself, was very evident. When a reporter walked into David W. Caruth's hardware store, the genial Commissioner was enjoying his noon day rest, in his shirt sleeves, and unctiously taking in the breeze that came in from the river by way of Washington avenue.

"Dan Kerwin has resigned. Why did he do so," said the reporter abruptly,

"Dan Kerwin has done what ?"

He has resigned."

"If you had told me he was dead, I would not have been more surprised," and then the Commissioner looked long and steadily out into the street, as though gazing upon the ruin of the City Hall just created.

"But why did he resign ?" jaunted the reporter.

"I knew of no reason. Everything was running smoothly. I think there must be some mistake in all this."

The reporter went down to Kerwin's foundry on the levee, and found

THE BLUFF OLD BLACKSMITH

quietly enjoying the midday rest, in his office, and looking out upon the river that glared in the sun.

"Mr. Kerwin, have you resigned your position as police commissioner?"

He is too honest to tell an untruth, and too straightforward to dodge all around the answer. He said, "I cannot talk about this matter, unless I am assured that you know and believe what you are saying."

Will a copy of a telegram received by the POST-DISPATCH from Jefferson City, satisfy you?"

"Yes, and I will then make a statement."

"There have been troubles in the Board, then?"

"Yes, breeding that way."

"An attempt to remove Chief Campbell?"

"I can say no more just now."

The reporter went away and returned with the telegram.

Mr. Kerwin read it over and then said, "I have received no notification of the Governor accepting the resignation. I forwarded it last night."

"Why do you withdraw from the Board?"

"Because I am sick and tired of the place. I quit because there are outside influences at work all the time upon the Board, to force them to remove men that I know to be honest and capable, and to fill their places with men who would probably be

DISHONEST.

That is my reason, and my only one. I would rather be in h—l than in such a fix."

"Do you allude to the Faulkner case?"

"Yes, that is one of them. An effort has been made ever since I have been on the Board to remove him. I looked into his office, and let me say, I hardly knew the man. It is an office, involving the expenditure of a great deal of money. Five thousand dollars a month might easily be covered up in the mounted stable, yet I find that Faulkner's administration was as close and economical as could be., Why should such a man be removed to make room for some one's political pet? And then again, the dog's life that these influences have led Jack Campbell, the Chief of Police. I tell you I felt for that man when he came to me one day, and said 'I would give $300, all the money I have in the world, to be back again in my old place as a sergeant or walking beat.' He has been hounded and abused as no man ever was. I said I was sick, tired and disgusted."

"But

THESE INFLUENCES,

what are they, politicians or gamblers?"

"Mixed," said Mr. Kerwin, whose emotion had been growing upon him. "I will face them all, and the public shall know what kind of men undertake to control such an important section of the city government as the police force."

"You sent your resignation up last night?"

"Yes, I took one of my business heads and I wrote: 'St. Louis, September 13. T. T. Crittenden, Governor: I hereby tender my resignation as Police Commissioner for St. Louis, to take effect from date.' I signed it Dan Kerwin, and put it in one of my business envelopes and mailed it myself. I would allow no G—d d——n man to handle my resignation. I am Dan Kerwin and act for myself."

"Do any of the other commissioners know anything of your action?"

"No, I acted for myself in this as in all other matters. My self-respect would not allow me to hold the place any longer."

"Had the Sunday question anything to do with your resignation? The people will think so."

"It had nothing whatever to do with it. Any statement that the Governor had fallen out with me, because I did not believe in raiding the saloons and beer gardens for violation of the Sunday law is untrue. The Governor has never attempted to dictate the policy of the Board, other than contained in the published letter written just before he went West on his summer trip. My relations were friendly with the Governor, and I take it that my resignation was a great surprise to him."

"How are your relations with your colleagues of the Board?"

"I want you to be particular to say that I respect them all highly, and have not a word to say against any of them. When I resigned I did what any other man in my place would have done. I believe that the Police Board should run the police force and execute the laws, and not what are called influences."

Mr. Kerwin spoke more, and quite freely and with considerable warmth, but mentioned none of the names of the distasteful individuals composing the influences.

On his return trip the reporter waylaid Mr. Caruth at lunch in a Vine street restaurant and told him what he had learned. Mr. Caruth expressed his profound surprise and sorrow at losing Mr. Kerwin on the board. "We have always pulled together, and on this Faulkner fight I was with him tooth and nail. I can imagine what influence he talks about, but just now I am too much upset and excited by the news to talk. Come and see me some other time, when I have had more time to think."

CHIEF CAMPBELL

was informed of the Vice-President's action and said: "Well, Mr. Kerwin told me yesterday that he had forwarded his resignation to the Governor, and I then told him that I was very sorry, as he had been a good friend to me."

"Is it true that you offered to resign the Chiefship?"

"I'll tell you about that. I went to Mr. Kerwin some time ago and said to him, 'Mr. Kerwin, I have saved $300 since I have been here, and I will give that money to any charitable institution in the city or tear it up in your presence if you will give me back my captaincy.' I have since changed my mind, and I now propose to do my duty up to the handle. My administration will be an honest one, and it will be admitted to be an honest one after I am gone. They cannot raise money enough to buy me."

"What outside influence has been brought to bear on you?"

"I do not wish to say anything about any influence or annoyance given me."

"What about displacing honest men to make room for probably dishonest men?"

"All I have to say is that I have done everything to preserve harmony. I do not desire to speak now about changes that have been made."

The public will be inclined to speculate as to the causes of Mr. Kerwin's deep disgust and abdication, and will be more than ever ready to believe that a syndicate composed of a member of a law firm, a politician, who is before the public in another capacity, and some of the old lottery crowd have been endeavoring for some time to organize the police force to their purposes, and throw the town open once more to the gamblers, who should, however operate under the auspices of the new ring. Mr. Kerwin himself states that the Sunday law question does not enter into the matter in any way.

A POST-DISPATCH reporter met Chief Campbell on the stairs leading to the floor where Warren McChesney's office is situated, and afterwards encountered him in conversation with

MR. KINKEAD,

on Chestnut street. Mr. Kinkead had little to say. "I've heard about Dan. Kerwin's resignation," he said; "but I know nothing about it. There must be music in the air, for I hear so much of it. as far as I am concerned, I have made no effort to be reappointed and have heard nothing from Gov. Crittenden about the charges against me. I don't care. Let them come. I do not know what my friends are doing for me. Campbell is all right as a Chief, and his removal, although I've heard it talked about, was never mentioned in the board.

WARREN F. M'CHESNEY

was asked about the rumor that he had told Ed. Butler that he had the resignations of more police commissioners than Kinkead in his possession.

"Did Ed. Butler say so?" asked McChesney.

"If he did I say that he is a —— —— liar. I know nothing about police business; have not had any resignations in my hands, and don't want to know."

"Did Chief Campbell call on you a few minutes ago?"

"No. I would not know him if he came in here now. There are plenty other offices in this building, are there not,"

ED BUTLER

said this afternoon that Warren McChesney said two weeks ago that he would compel Dan Kerwin to resign from the Police Board within thirty days. This was after Mr. Butler's attention had been called to McChesney's statement, published above. "My answer was that I did not believe the man lived who could control Dan Kerwin that far, and that he was not that kind of a duck."

ANOTHER CAUCUS.

The Seven Map Out Their Programme for To-Night.

The Solid Seven met in secret session at Councilman Stone's office, on Carr street, last night, to arrange a programme for this evening's meeting of the Council. Several members who were seen to-day refused to talk. But it is known that the programme is that Charlie Evans is to be rejected, and that Cady's name will be laid over for a week. The only two other names actually before the body are Mott for Park Commissioner and Setzer for Market Master of Soulard Market, and both will probably go over. It may happen that if the insurance men make a big fight for Evans, at the meeting of the Fire Department Committee this afternoon, another week will be allowed him, but this is not probable, and will only be done if a very strong demand is made. Whitman's name for Water Commissioner and McMath's as the nominee for Sewer Commissioner, are in the hands of a committee that is not expected to report to-night. The Mayor will very probably send in Turner's name for Street Commissioner. It was rumored to-day that Stevenson would be nominated to-night for his present position, Assessor and Collector of Water Rates, but the Mayor has said that he wanted Stevenson for Health Commissioner or nothing, and he may go in for that place. Meyer Friede, a member of the Board of Charities, is also down as an applicant for the Health Commissionership.

HUNTING FOR HENDRICKS.

The Wily Hoosier Disappoints Some Missouri Statesmen.

Dr. Shields of Hannibal, and a leading member of the Democratic State Central Committee, said this morning that Governor Thomas A. Hendricks was expected at the Southern Hotel at noon yesterday, on his way back to Indiana from Omaha. The presence in the city of Congressmen Hatch and Clardy of this State, ex-Congressman John B. Clark, Congressman Wm. R. Morrison of Illinois, and John O'Day, Chairman of the State Democratic Committee, and himself. was merely a coincidence, and in no way connected with an alleged and proposed conference, at which Missouri was to be fixed up for "the old ticket." The idea that a State Committee could hand over a State to any individual, could only originate in the mind of a reporter with little political experience. The old man seemed to be putting in some mighty strong work for "the old ticket," said the Doctor in conclusion. The statesmen mentioned above are still here, with the exception of Clardy. It may be remarked that one or more of the party asked for the ex-Vice-President at the Southern to-day. He probably returned by way of Chicago.

A Man and a Race-Horse.

Two suits, both based on the accident to the Wabash train at Wright City, Mo., on the 1st of the current month, were instituted in the Circuit Court to-day. The first is that of Mrs. Emma Mason, who asks $5,000 as damages for the killing of her husband, Frank Mason; and the second is that of Charles H. Hauck, who wants $2,500 as reparation for the killing of his race horse Hanging Rock and the demolition of a sulky and other property.

Real Estate Exchange.

There was a special meeting of the members of the Real Estate and Stock Exchange held this evening at 3 o'clock. The question of the reconstruction of the streets was warmly discussed, the object of the meeting being to take action on the matter of the streets. Resolutions were passed indorsing the work of the present Street Commissioner and the local board.

THE FIRST GUNS.

Meeting of the French and Black Flag Forces.

An Eight-Hour Battle Out of Which the Frenchmen Came Victorious—Great Loss of Life—Late and Startling Details of the Canton Riots—Cablegrams.

LONDON, September 14.—A dispatch from Hong Kong to-day states that a battle has taken place between the French forces and the Black Flags, lasting eight hours. The engagement took place between Hanoi and Sontay, near the Red River. The French forces are reported as having lost two officers and fifty men. The loss of the Black Flags is estimated at between five and six hundred men. Hanoi is the town where the French have been holding their garrison since the previous engagement at Sontay awaiting reinforcement. It is probable, from the tenor of the above dispatch, that the Black Flags, whose headquarters are at Bacminh, to the northeast of Hanoi, determined to recapture Sontay from the French, who had kept gunboats there for the last fortnight, and while en route from Bacninh across the Delta they were met by the French en route from Hanoi to intercept them, the above battle being the result.

THE CANTON RIOT.

LONDON, September 14.—The Standard's Hong-Kong special gives additional details of the rioting at Canton on Monday last. The riot began at 8 o'clock in the morning, as previously stated. The trouble was caused by a quarrel between some Chinese and Portugese watchmen on the quay. During the latter part of the riot some of the merchants armed themselves to defend their property. The party consisted of nine Germans and three Englishmen. They fired into the mob, killing five Chinese and wounding many more. The arrival of the Chinese troops finally checked the mob. Now two British, one French and five Chinese gunboats are moored in the river abreast the foreign settlement. The Chinese have posted placards on the walls of the city applauding the action of the populace and calling upon them to kill Europeans at the next opportunity which presents itself. The different consuls at Canton admit the situation very serious and the future of the European colony is gloomy in the extreme; almost to an open war between the native and foreign elements, and it will be necessary to have men-of-war in the harbor for a long time to come as a measure of protection. The houses burned by the mob include ten English, one American, two German and one French. The consuls have forwarded to the viceroy an identical note, holding him answerable for the destruction of property, because he failed to promptly send troops when advised of the disorder. Three Chinamen, who were caught in the act of plundering property, and a Portuguese, who was the immediate cause of the outbreak, is now imprisoned at the British Consulate.

A FRENCH ACCOUNT.

LONDON, September 14.—The French account of the battle with the Black Flags states that on Saturday, September 1, the French forces from Hanoi advanced to within twelve miles of Sontay, where the enemy was found in casemate forts, upon which the fire of the French had no effect. After three days' hard fighting the French troops, aided by a heavy fire from the fleet under Admiral Bouet, carried the enemy's works at the point of the bayonet, capturing two towns and two Black Flags.

The Standard's special says the French loss is two officers and four men killed, and three officers and forty men wounded. After the victory Admiral Bouet withdrew his fleet to Hanoi to await reinforcements, leaving 300 men to hold the captured towns. The French naval force at Tonquin, under Admiral Bouet, comprises ironclads Bayard of four guns, Atlante of twelve guns, Triomphant of eight guns; cruisers Trouville and Chateau Renaud, transports Annamite and Mythic, each carrying two guns; gunboats Lynx and Vipre, each carrying four guns, and Fanfare, Leopard and Surprise, each carrying two guns. There are four sloops carrying an aggregate of seven guns, and four dispatch boats carrying an aggregate of twelve guns; two torpedo launches are also attached to the fleet.

France.

PARIS, September 14.—The Soir professes to give the following as the heads of the proposals by Marquis Toeng, Chinese Ambassadar, to Challemel Lacour. "That France shall cease sending reinforcements to Tonquin. That China will recognize the treaty of Hue, but will retain the right to the investiture of the Anamese sovereigns. That the French Protectorate shall be under Chinese control and under direction of the military mandarins. That China shall be reimbursed for all expenses incurred in the repression of the Black Flags."

The Republique Francaise, in an article upon the Tonquin question, takes the ground that France cannot accept the proposed established neutralization, but will be satisfied if Tonquin is withdrawn entirely from Chinese jurisdiction. It also says that if England can guarantee the agreement of China to these points the whole trouble will be speedily ended.

NOT UNTIL OCTOBER.

PARIS, September 14.—It is announced that the Government has at present no intention to convene the Chamber of Deputies before the 22d of October.

England.

LONDON, September 14.—This was the last day of the Doncaster September meeting. In the race for the Doncaster cup, Sir F. Johnston's Thebais walked over the course for the stakes.

Canada.

OTTAWA, September 14.—The Princess Louise has donated a picture of her own painting to the Dominion Gallery as a memento of her residence in Canada. The picture is five feet in length, and is at present on exhibition in Boston.

A Burned Steamer.

CHATHAM, September 14.—The loss by the burning of the steamer Queen Victoria yesterday is $15,000. The crew barely escaped with their lives, several firemen being severely burned.

The Pennsylvania Legislature.

HARRISBURG, PA., September 14.—As soon as the journal was read in the Senate to-day, the Republicans, in order to carry out the action of the caucus, to meet only Tuesday and Friday, moved to adjourn. Carried. There was some little discussion prior to the motion on the correction of the journal, and the same bad feeling which prevailed yesterday showed itself again. The House having nothing before it, adjourned shortly after meeting.

CAUGHT IN A GALE.

Narrow Escape of the Steamer City of Atlanta.

WILMINGTON, N. C., September 14.—The steamer City of Atlanta that sailed from Charleston S. C., for New York, with thirty-three passengers, was towed into Smithville yesterday evening by the revenue cutter Colfax, which encountered the City of Atlanta, while seeking for the missing Frying Pan Shoals lightship. The City of Atlanta was in tow of the steamer British Empire, from Vera Cruz and Havana, for New York. The latter fell in with the City of Atlanta 120 miles southeast of Wilmington. She was leaking, and asked for assistance, which was rendered, and the disabled steamer taken in tow. The Atlanta left Charleston Saturday, and on Sunday encountered a gale from the northeast, which increased to a huricane Monday evening and night. The steamer leaked in the after ports, which put over seven feet of water in the ship and drowned the fires. She drifted from 4 o'clock p. m. Monday till 10 o'clock a. m. Tuesday, when she was taken in tow by the British Empire and towed off Frying Pan Shoals, and thence to Smithville by the revenue cutter. The City of Atlanta has been pumped out, and will proceed to her destination as soon as necessary repairs are made. Mos of her passengers, among whom are several ladies and children, came up to the city on a tug.

STILL ANOTHER.

WILMINGTON, N. C., September 14.—The steamship Raleigh, which sailed from Baltimore for this port last Saturday, reached the wharf this morning with her boiler started, and smoke-stack blown away. Her feed and blow connections leaked badly, and had to be cut away to keep the water out. The ship encountered a terrific gale. The barometer fell to 69. The ship is not seriously damaged.

RIOTING MINERS.

Two Women Killed and Several Men Wounded.

NEW YORK, September 14.—The following special is printed here and dated Reading, Pa.: "A dispatch from Hazelton says: A fearful riot took place there late yesterday at the coal mine on the Upper Lehigh. A number of miners were discharged and they threatened to destroy the company's property. The constabulary were called out and a terrible fight with pistols occurred. A woman named Harding was struck by a ball and instantly killed. A young girl of 6 years was also instantly killed. Police Captain Hines was shot through the hand. Nine miners were arrested, and eleven revolvers found on their persons. A number of men were slightly wounded. Several officers were badly hurt during the final charge in capturing rioters One of the miners took refuge in his house and fired at the officers. They returned fire and rallied and captured their man. Finally quiet was restored.

TESTING THE LAW.

A Police Gazette Man Fined in Georgia.

ATLANTA, GA., September 14.—W. Montrose, of the New York Police Gazette, was to-day convicted of distributing an obscene pictorial newspaper, and sentenced to pay $1,000 or serve twelve months on the chain gang. Several weeks ago Montrose came here by order of Richard K. Fox, proprietor of the Police Gazette, to make a test case under the law passed in 1878. Fox is here and the trial excites much interest. The presiding judge said he would impose the full penalty because the defendant was seeking to get a foot-hold for his paper, which has been suppressed for five years. The case goes to the Supreme Court.

Funeral of Patrick J. Reardon.

The funeral of Patrick J. Reardon, who while driving the patrol wagon of the Third District some weeks ago, was thrown to the ground and died on Wednesday, took place this afternoon from the residence of the deceased, No. 1904 Cass avenue. The remains were enclosed in a beautiful metallic casket and during the day a vast number of friends and officials of the police department called to take a parting look at their dead friend and brother officer. At 2 o'clock the remains were taken to St. Lawrence O'Toole's Church, where the Rev. Father Henry read the funeral service and paid a feeling tribute to the many good qualities of the deceased. The pall-bearers were: Wm. Desmond, John J. Sheahan, John Sears, John Harty, Michael Burns, John Kelly, John Doolan and W. A. Hobbs. Among the many beautiful floral tributes were: Pillow with "Farewell" in purple, James Shea; harp from Mrs. Wm. Spink, sister; cross and anchor, Mrs. Frank Fellows, sister; wreath and cross, Mrs. P. Reardon, his mother; cross, Miss Joe Sheahan; cross, Miss Lena Cullinen; cross, harp and anchor, with the word "Uncle" in purple, from his nieces, Maggie, Nora and Annie Rohan; bouquet, Mrs. Michael Rohan. The remains were interred in Calvary Cemetery.

Judge Ferguson's Will.

The last will and testament of the late Judge Wm. F. Ferguson was admitted to probate to-day. The testator bequeaths all of his estate, real, personal and mixed, to his wife, Virginia C. Ferguson, absolutely. He requests his wife, to give to his cousin, Charles M. Ferguson, of Norfolk, Va., his gold watch and gold chain and seal, and to his son Finley his silver seal and all of his silver marked F. F. or F. R. F. He also desires her to present to the Mercantile Library Association of this city the portraits of his father (the late Judge Peter Ferguson) and himself. Mrs. Virginia Ferguson is appointed executrix. The will is dated February 6, 1878.

Heavy Bills for Street Car Fare.

Maj. Charles R. Suter, in charge of the U. S. Engineer's office in this city, has been sued by his colored porter, Edward Robinson, for $661 10. The plaintiff claims that the Major is indebted to him in the following sums for street car fare expended in the Major's individual behalf: $13 70. $24 30, $24 30, $24 30, $24 30, $30 60, $52 50, $21 30 and $21 30, and for other services in the further sum of $410.

Taking Warning.

The death of two firemen as the direct result of the terrible condition of the streets has stirred the Street Department up a little, and an unusual number of street repairers are at work in the central portion of the city, filling the more dangerous hollows in the rotten wooden pavements. Chestnut street, from Fifth to Sixth, which has been a standing menace to life and property for weeks, was to-day rendered safe, if not presentable, by a force of forty men with wagon loads of broken rock.

"By Consent."

After a few moments buzzing conversation, Arthur J. Lyons, the light-flying gambler, who is charged with running a faro bank at 111 North Sixth street, was granted a long and lenient continuance of one month in the "Court of Criminal Correction "by consent" to-day. This is the second favor of the kind which has been granted.

ANOTHER FAILURE.

The Second Party for the Relief of Greeley Return Empty-Handed.

ST. JOHNS, N. F., September 14.—The United States steamship Yantic, which left St. John's as a consort for the Proteus carrying the second Greeley relief expedition under the command of Lieut. Garlington, at 4 p. m., on June 29, arrived here alone on yesterday morning. The Proteus, arrived at God Haven Bay, Disce Island, July 6; the Yantic the same place on July 12. Thence she sailed for Cory Island, arriving on July 16. She left on the 21st., and at dusk on the 23d, when in about latitude 77°, some distance north of Cape Perry, the ice-floes closed in about her, nipping her severely and gradually forcing her out of the water a few feet and pinning her between two huge projections of the ice and literally crushing her to pieces. Lieut. Garlington and his party and the officers and crew of the Proteus were forced to abandon the wreck, saving but few of their implements and stores. They managed to save the ship's boats, however, and used them whenever they could find a stream that was navigable. The party made for the Yantic, which had been left to the South. They made their way across Smith's Sound, and along the eastern shore of Cape York, thence across Melville Bay to Upernavik, arriving there on August 24. The Yantic reached Upernavik on September 21, and took the party on board. Lieut. Caldwell and six of the crew of the Proteus parted company with Garlington and the others at Cape York. Caldwell's party reached the Yantic on July 31.

The failure of this expedition leaves the fate of the Greeley party as much in the dark as ever. Not a word was heard from the Greeley party, and nothing even seem to indicate the whereabouts of any of them. The prospects of the Greeley colony encountering their fourth winter and the rigors of the Arctic circle are mournful to contemplate. The crews of both ships—the Yantic and Proteus—are in excellent health, and one death only occurred during the expedition, that of Henry Wilson, the gunner's mate of the Yantic, of apoplexy.

THE GREELEY PARTY,

consisting of Lieutenant Greeley, of the Fifth Cavalry, acting signal officer, and twenty-one men, were assigned to duty on June 17, 1881. The commander of the expedition was instructed to establish a permanent signal station at the most suitable point north of the eighty-first parallel and contiguous to the coal seam discovered near Lady Franklin Bay by the English expedition in 1877. The instructions directed that the steamer, on arriving at the permanent station, should discharge her cargo and return to St. John's; that after the departure of the vessel the energies of the party should first be devoted to the erection of the dwelling-house and observatories; that the sledging parties should work generally in the interests of exploration and discovery. Instructions as to the movements of the party in anticipation of meeting the relief parties which were to be sent out from time to time were minute. The first relief party was under command of Lieut. Beebe and sailed in the steamer Neptune from St. John's on July 8, 1882, but they failed to get as far north even as Cape Hawkes, at least 150 miles south of Lady Franklin Bay. Supplies and a whaleboat were left at Cape Sabine, a whaleboat at Cape Isabella, and stores were also landed at Life Boat Cove, Littleton's Island. Beebe's expedition returned during the first week of September.

The only news that has been heard of Greeley's party was brought to the Yantic while she was at anchor in the Danish harbor in Greenland on August 12. Gov. Elbury came on board and reported that the captain of the Danish steamer Sophia had told him that native Esquimaux had told him two natives with the Greeley expedition arrived at the harbor thirty miles north of Cape Yull last winter and reported the party all well except Dr. Parry, who had died. Another Esquimau, arriving from the Greeley Camp, reported all officers murdered by the men. Neither of these reports is reliable, as the fondness of the Esquimaux for lying and sensationalism places them in the category of fiction.

BRUTAL BISHOP.

He Attempts the Assassination of an Aged Gentleman.

By Telegraph to the Post-Dispatch.

NEW HAVEN, September 14.—Isaac French, an old resident of Falls Village, was awakened at midnight by a noise. He arose and seeing no one, went to close a wood-house door. He passed on his way through a back kitchen where, he was attacked by a man, struck on the back of his head and felled, when he was struck again three or four blows about the head and face. His wife, hearing the noise, came in time to see his assailant standing over and striking him. Her cries attracted his attention and he hurled a slungshot which made a terrible wound in her cheek. The man then made his escape. Mr. French is sixty-eight years old, and little hope is entertained of his recovery. On Tuesday, Hiram Bishop, a dissolute character, living in the place, was arrested and taken before a Justice. Mrs. French recognizes Bishop as the assailant. Bishop was bound over under $5,000 bonds.

Morphia Did the Work.

By Telegraph to the Post-Dispatch.

PHILADELPHIA, September 14.—About 10 o'clock yesterday morning a tall, rather well-dressed man of apparently 50 years, entered the drug store of C. Knight at Locust and Tenth streets, and asked for a dose of fifteen grains of morphia. He wore a bristling beard of several days' growth, was bloated about the eyes and bore traces of having slept in the gutter.

"It's no more than I'm used to," he said, "I take it every day, and you can see how shaky I am." And the stranger held up his hands and arms to prove his assertions.

The druggist at first refused, but when the man showed by his conversation that he was familiar with the drug and claimed to be Dr. Richard Thomas, of Trenton, N. J., the druggist weighed out the fifteen grains of morphia on his own prescription. The stranger called for a graduating glass and some water and mixed and swallowed the entire dose. A few minutes later the man was picked up in the street in a comatose state and taken to the Pennsylvania Hospital. The physicians worked with him the entire day. Under the galvanic battery he awoke enough to say repeatedly: "fifteen grains; big dose." Nothing concerning his purpose of suicide or his identity could be learned. Late last night the chances of his recovery were decidedly against him.

Saturday last Dr. Richard Thomas, who had been residing with his father, at No. 214 East Front street, Trenton, went to New York with the expectation of resuming the practice of his profession. His family have heard nothing from him since. In the absence of information they say he may be the man who tried to commit suicide.

Tilden's Yacht Victorious.

By Telegraph to the Post-Dispatch.

NEW YORK, September 14.—On her usual trip up the Hudson Wednesday evening the Atalanta encountered the Yosemite with Mr. Tilden and his party aboard. Great rivalry has for some time been existing between these two yachts, and a race was begun in good earnest. For several miles the race was even, but by degrees the Yosemite forged ahead, and when she dropped her anchor off Greystone the Atalanta was several lengths behind. One of the engineers of the Yosemite, in conversation with a reporter yesterday, said that the boilers of the Yosemite were tested at 120 pounds, and during the race steam was allowed to rise to 110 pounds. Mr. Tilden enjoyed the excitement of the race, but was not aware of the risk he was running. Mr. Gould, on the other hand, will not allow a strain of more than seventy pounds on the boilers of the Atalanta, although they are tested for 130 pounds.

HAT FACTORIES BURNED.

A Big Blaze at Brooklyn — Loss $95,000.

NEW YORK, September 14.—Fire this morning destroyed the Brooklyn Felt Hat Works of Wm. A. Boglin & Co. and the Novelty Straw Hat Factory, owned by Chas. E. Everett of Brooklyn. The fire broke out first last night and was extinguished, as was thought, with a loss of about $2,000 on building and $8,000 on stock and machinery. The fire again broke out at 6 o'clock this morning and the structure was all in flames before the firemen arrived. The factory, together with two frame buildings in the rear, belonging to the same company, were demolished. The loss on the building is estimated at $20,000, on machinery $40,000, and on stock $35,000, The flames then extended to the Novelty Straw Hat Factory, adjoining, and pretty well gutted the placed. Everetts said his loss on the building would be about $17,000 and the loss on stock and machinery from $25,000 to $30,000. They employed about 200 hands and a full force of hands had been ordered to work Monday. Everetts does not think his insurance sufficient to cover the loss. The Brooklyn Felt Hat Works were only partially insured. This factory has been destroyed twice before by fire. It lost $20,000 last year by bad business. About 125 men were employed here. The fire last night originated in the engine room, but the origin of the fire this morning could not be learned.

A Woman Hanged.

RICHMOND, VA., September 14.—Barbara Miller, colored, was hanged here to-day for complicity in the murder of her husband in February last. Chas. Henry Lee, her accomplice, was hanged the 3d of last month. She died from strangulation. Several thousand persons were in the vicinity of the jail. The execution took place in the jail yard only about 100 persons having witnessed it,, though many hundreds had applied for permission to witness the novel spectacle of hanging a woman. The trap was sprung at 12:12. Henry Lee, her accomplice, planned the murder but failed to execute it when the time came, and the woman took an axe from him and brained Miller while asleep. Lee then carried the body to the railroad, where several trains passed over and mangled the corpse in a horrible manner. It was thought the victim was asleep on the track and the railroad company paid the expenses of the funeral, but subsequently suspicions were aroused and the two culprits were arrested and confessed their guilt.

Arrested For Arson.

By Telegraph to the Post-Dispatch.

WILMINGTON, DEL., September 14.—On Sunday evening last the sheds, stables, and slaughter-house of A. A. Eastburn & Bro., in South Wilmington, were destroyed by fire. George Hinson, a colored man who had worked for Eastburn, was at home when the alarm was given and remarked that Eastburn's stable was on fire and he did not intend to go. Yesterday Chief Henkins received a telegram from Salem saying that Hinson had been caught and locked up. He denies his guilt. A white man who disappeared at the same time Hinson left is suspected of being an accessory to the crime. He has been traced to Philadelphia. The crime of arson in this State is a capital offense, and it is very rarely arrests are made for that crime.

Gould and the L. & N.

By Telegraph to the Post-Dispatch.

NEW YORK, September 14.—Great interest is manifested in Wall street in the report that Mr. Jay Gould has obtained control of the Louisville and Nashville. That he has purchased a large block of the stock is considered certain; that he has bought the heavy interest in the road held by Mr. G. F. Williams is thought to be likely, and that he is to enter the Board of Directors with Russell Sage at the next meeting is freely admitted by Mr. Gould's representatives. The election of Mr. Baldwin, president of the Louisville and Nashville, as a director of the Western Union, is regarded as confirmatory of Mr. Gould's proposed entrance into the directory of the road.

Oil Tank Burned.

MILWAUKEE. September 14. — Twenty thousand oil barrels and the cooper shop and adjacent sheds of the Standard Oil Company burned last night, six miles north of this city. Several cars of the St. Paul Company and many of the Northwestern Company's cars, standing on the side tracks, were also consumed. Loss about $40,000; no insurance. The fire is supposed to have been incendiary. The pipes leading to the big tanks were cut by a watchman, so the fire did not spread to them at all.

WAS IT MURDER?

Mrs. Williamson Found Dead in Her Bed—Billy McCue Arrested.

This morning Kate Williamson, a widow 35 years of age, was found dead in bed in her room at No. 910 South Third street. The circumstances under which the death occurred would indicate that her death was caused by Wm. McCue, who was arrested and held to await the result of the Coroner's inquest. Mrs. Williamson lived in two rooms of the house at the above number. About 9 o'clock last night Wm. McCue, who was a frequent caller at the place was sitting in the room when the neighbors passed. The door was closed shortly afterwards and then Mrs. Vincent, a colored woman who lives in the same yard, heard high words. Shortly after this the Vincent family heard a scuffling in Mrs. Williamson's rooms and screams which were apparently

PARTIALLY SMOTHERED.

McCue left the room, and going down stairs left the vicinity. About 1:30 o'clock this morning he returned again and was seen by the Vincent family, Julia Thompson who lives at 912 South Third street, Sam Casey, who lives in the rear of 312 Convent street and a woman living in the rear of 313 Convent street. He went up stairs to Mrs. Williamson's rooms and closed the door on entering. Mrs. Vincent again heard noises of a scuffle, but they did not last long and McCue left shortly afterwards. This morning Mrs Vincent called at Mrs. Williamson's rooms through neighborly curiosity to ask about the trouble of last night. The woman was lying on the bed but did not answer the knocks. This aroused Mrs. Vincent's suspicion and she called several of the neighbors, who entered the room and

FOUND THE WOMAN DEAD.

Sergeant Landers was called in, and on hearing the statements given above in effect he reported the case to the Coroner. While he was making inquiries in the neighborhood McCue returned and was arrested at once and taken to the Chestnut Street Station.

WILLIAM M'CUE,

or "Red" McCue, as he is called, was shaken out of an apparent stupor by Sergt. Kiely, at the Chestnut Street Station, this noon, to answer a few questions put to him by a POST-DISPATCH reporter. He said he knew nothing about the cause of Mrs. Williamson's death. His story is that he called on her last night and they drank beer together out of a bucket; that he left her without having any trouble, and that he was horrified to hear from a Mrs. Casey this morning that she was dead. With a tear in his eye, McCue said he walked off. He gave another version of his first knowledge of the woman's death, saying it had been imparted to him by her brother, Billy Williamson; that as soon as he heard it he went home and changed his clothes and then visited the late home of the deceased; that he was there for an hour and a half when he was arrested and taken to the Chestnut Street Station. From McCue's condition it is hardly probable he remembers what he did last night. McCue is a blacksmith and works at Fitzpatrick's shop. The police say he has a bad reputation.

RAILWAY NEWS.

The Louisville Fight Ended—Opened to Portland, Oregon—Notes—Personals.

The Louisville and Cincinnati passenger rate war terminated this morning. The agents of the O. & M. and the Air Line received telegraphic instructions to tear down low rate notices and restore the rate to Louisville to $8 and to Cincinnati $10. However there is still a round-trip rate of $10 to Louisville, known as the Exposition rate. Neither of the representatives here could give the whys or wherefores of the restoration. All they knew was telegraphic orders had been received to restore. This fight was started in a mild form August 1, and continued getting worse until September 3, when the one-dollar rates went into effect. It is probably the longest rate war of its character ever experienced.

OPENED TO PORTLAND.

J. H. Jack, Southwestern Traveling Agent of the Northern Pacific, has opened an office in this city, taking quarters in the C., B. & Q. office. He states that his line is now thoroughly in operation to Portland, Oregon, and that a passenger can go from St. Louis to that city with one change of cars. A through train is run from here to Minneapolis, 570 miles, and another from Minneapolis to Portland, a distance of 1,976 miles. The Northern Pacific runs a line of steamers up the Columbia river and via the ocean to San Francisco. The time from St. Louis to Portland is 5½ days.

NOTES AND PERSONALS.

J. P. Powers, traveling passenger agent of the Missouri Pacific and Wabash, is in the city.

The Wabash has opened its Des Moines and St. Louis line in earnest, and a first-class line of sleepers is being run between here and there.

E. K. Sibley, receiver of the Memphis and Little Rock, is in the city. It is thought probable this road will be taken out of the hands of the receiver in a few weeks.

Capt. R. S. Hayes, first vice-president of the Gould Lines, will only go as far as Omaha with Col. Hoxie, the morning papers to the contrary notwithstanding.

A Stampede Averted.

A dropped lantern during the Mammoth Cave set, in "The Power of Money," at the Standard Theater last night, was followed by a tiny puff of smoke. An excitable fool in the balcony started to run up the aisle and cried "fire." There was a general movement of the audience, and a stampede seemed imminent, several hundred people rising to their feet and looking about anxiously. The fool opened his mouth to repeat the cry, but the opening was stopped by the well-directed fist of Jerome Fagin, the private policeman. The alarm was almost immediately quieted, the orchestra struck up an air, and the performance went on without interruption. The man who had almost caused a disastrous panic had the cheek to go to the box office to complain of the policeman and was given a pass to the outside by Manager Smith. There was no danger at any time. The smoke came from the lantern, which was extinguished almost as it fell. The Standard Theater is perfectly safe from fire, and its forty-one exits would allow an audience to escape rapidly.

A Quarter Million Revenue.

At noon to-day the City Collector had issued 620 dramshop licenses and 177 wine and beer licenses, and Collector Hudson says that the indications now are that out of 1,750 saloons fully 1,600 will continue in business. The proportion of wine and beer license is about one to five dramshop licenses. The amount of money paid for the four months for a dramshop license is $166 33, and the revenue from that source alone will be within a few dollars of $213,000, which will increase to $225,000 by the beer license. The capacity of the clerical force of the Collector's office is tested by the rush of saloon-keepers for their licenses. This will be more than double the usual revenue.

Catholic Notes.

The Markets.

FORENOON SESSION, CLOSING AT 1 P. M.

There is probably still a little wheat left in the bins and a little corn left standing in the fields. —The general freight agent of a Kansas railroad that runs through one of the best corn raising sections in Kansas, says that the corn along his road will be moving freely in October. —The amount of wheat on passage September 8 was 600,000 bu larger than the week previous. —R. C. Greer, who has just returned from a visit to Southwest Missouri, says the grain dealers of that section inform him that not over an eighth of their wheat crop has been moved out. Also, that corn looks magnificent and can be contracted for at 20c per bushel, and buyers believe can be bought as low as 18c.—The great resemblance between McKee Rankin as Fabian and Louis De Franchi and John White has been remarked by every Exchange member who has seen "The Corsican Brothers" this week. And the look on Fabian's face when he beholds the apparition of his brother Louis is exactly the same as can be seen on John White's countenance when wheat drops an eighth.—The extraordinary dullness which prevailed in the "pit" to-day led some one to ask whose funeral was going on. After a careful survey of the room Bob Nicol's absence was noticed, and it was unanimously decided that he was dead. But Bob shortly turned up, wiping his lips, and it was seen that he was still in the spirit, or the spirit in him.—A letter from a milling firm at Halstead, Kan., says that they are buying wheat 72c to 75c per bushel, and that it is not a question of the amount of wheat in their section, but of cars to move it. —Jackson Bros, of Chicago wire Grace & Ferguson: "Milwaukee says good rains in Kansas and Nebraska last night. Indications of rain in this region."—On Tuesday Gen. D. P. Greer bet the cigars with eight different parties that year corn would sell at 45c before Wednesday's close. The General now says that by actual count there have been fifty-three claimants for those cigars. He consequently calls all bets off.—Cash No. 2 red wheat struck the dollar mark to-day, and the exultant howl that went up from the bears was simply fearful. Pete McMorrow was the first to sell at $.—Several fine ears of corn of the new crop were received to-day by S. W. Cobb & Co. from S. A. Brown & Co. of Neodosha, Kan. These samples were large, well filled out and dry as a bone. The sender promises to have a car of new corn in this market in a few days. The samples now here will be sent to Rufus Hatch of New York by Web Samuel.

There was a further decline in wheat to-day. The steady accumulation in stocks at principal points, continued large receipts (to-day's 470 cars in Toledo, 331 cars in Chicago, and 92,000 bu. here) in all the markets, dull and weakening cables, the lack of any demand in this country or in Europe to relieve the glut, and fine weather about everywhere, proved too much for the bulls and they made no attempt to sustain prices. The home market acted rather stubbornly, although it went lower in value. There was a steady demand from shorts that checked any serious decline and the bears were not disposed to sell freely. In consequence the market was marked by a good deal of irregularity in price and an unsettled tone until late; then there was a pressure to sell and the close was weak and at declines of ¾@1c from yesterday's latest rates. Corn let down a fraction, partly in sympathy with wheat, but also depressed by the uniformly fine weather throughout the corn section and the more reassuring reports from the crop. The bulls appeared to have lost their grip on the market and there was not the wild desire shown to buy that has been seen at times during the past few days. But neither did the bears exhibit any very decided craving to sell. Trading was small and in a spiritless way, something of a scarcity in outside orders having a good deal to do with this reduced trading. Nearing the close there was a very weak feeling developed. Latest sales were at declines of ⅛c for September, ¼c for October and November, ⅜@½c for year and ¼c for May. Oats were off in price and weak, with fair trading in May, but little done otherwise. Cash grades of wheat were lower, the speculative grade finally reaching $1. At the decline millers took hold with more freedom of No. 2 red, speculators also purchasing; all else sold readily to Eastern shippers. Cash corn held up firmly, as offerings were small and sellers firm, Exporters took all the No. 2 mixed; little done otherwise, so scarce were all other grades. Cash oats were weaker and slower sale, though order and feeding buyers were in the market.

Flour—The market continues very quiet and in some respects easier. The movement to-day was slow and transfers light in all grades. The home and Southern demand was small, and buyers purchased only moderately of family and choice at pretty much their own figures, which, although not quoted generally lower, were weak and easier at the following; We quote: The inside price for strong grades and outside lots between grades): Extra fancy $5 30@5 45; fancy $5 00@5 15; choice $4 65@4 75; family $4 00@4 10; xxx $3 50@3 65; xx $3 15@3 25; x $2 75@2 90; superfine $2 50@2 70; fine $2 20@2 25; patent $5 65@6 40. These prices are for lots on arrivals at depot and levee; favorite brands 25c more and order lots higher.

Cornmeal—Unchanged at $2 20@2 25 on order delivery, pearl meal grits and hominy $3 35@3 40.

Millfeed—Strong and in demand. Sacked bran urgently sought for and higher at 64@66 E track, 65 at mill; bulk bran steady at 51@52 at country point, 52 E track.

Hay—At the decline established yesterday there was quite a good demand to-day, shippers buying fairly of medium grades and local feeders taking all the choice offered. Quotations are: This side—Prairie: $8@8 25 for prime to strictly prime; $8 50@8 75 for choice to fancy; mixed $8@10 for common to choice; timothy $11@15, top rate for fancy. East side 50@$1 per ton lower than above rates.

Provisions—Showed a weaker tone and prices eased off lightly, the whole market ruling quiet to-day. The only approach to activity was in bacon, and then buyers were rather offish for concessions. Sales of packed bacon were at 6.45 for shoulders, 6.95@7 for longs, 7.20@7.15 for c'ribs, and 7.25@7.40 for shorts. Some standard mess pork jobbed at $11 85@11 90, but there was not much inquiry. Prime steam lard salable at 7¾. Except a sale of 50,000 lbs winter shorts up country, little was done in dry salt; some boxed shoulders brought 5¼@5⅜, and longs 6⅜@6½. Hams 13½@15, mainly 14@14½; Tallow 7¼@⅜ for prime summer in oil barrels. No. 2 6⅞@7 and irregular package 7⅛@7¼; grease tallow 6⅛. Breakfast bacon 10½@12½; on orders 11@13. Grease 4¾@5 for brown, 5¼@5⅜ for yellow; 6@6½ for white. Beef—Extra mess $15@16 per barrel according to brand; $8@8 50 per half barrel; dried fresh 13¼@14 ₱ lb. Fresh smoked tongues $6@7 ₱ dozen. Salt—Domestic $1 25 this side, $1 20 E. side per barrel; ground alum $1 15 per sack for round lots, $1 20@1 25 in a small way.

Lead firm, with hard in demand at $4 05, at which latest sale was made, but refined was not salable above $4 05.

Grass Seeds—In very small supply, there being more red-top than usual, but little timothy and clover. There was not much demand for the former and the movement in the two latter was restricted to sales of 90 sks timothy at $1 30, 200 sks do. p. t., 52 sks dark $1 22½, and 53 sks red-top mixed timothy at $1 27½.

Flaxseed—Unchanged at $1 27.

Hempseed—Quiet at $1 40@1 50.

Castor Beans—None offered; $1 78 bid for spot, and $1 70 for October.

Cottton Seed—In demand; October salable at $15 per ton, and November at $14.

Cotton.

Strength still characterizes the cotton market in all its branches, and the bull element predominates. Spots to-day were without change, but the tone was generally steady and the movement very fair. The local market alone showed no improvement in this respect, the total sales up to 2:30 p. m. amounting to 112 bales. At the outset futures at the different markets were one or two points off from the closing figures of the day previous, but this was only a temporary decline, as prices almost immediately reacted and moved steadily upwards again. Liverpool, however, was an exception, the closing being about up to the opening figures, which were 1 to 2-64d lower. Advices from Manchester report yarns and fabrics firm, with but little doing. A good trade was reported in New York futures and prices advanced largely from the start, under the stimulus of an active demand, the appreciation amounting to 3 to 9 points. At 2:10 p.m. New Orleans was more quiet, but still bullish and values at the 1 p. m. call show an upward movement of 4 to 9 points.

CATTLE—The supply at the opening of this market was small and the trade generally dull. There was not many orders for shipping cattle, buyers having filled up pretty well the day before. The demand from local dealers and city butchers was also small, and indeed there was no inquiry of any consequence from any class. The offerings of Texas and Indian cattle were meager, but those that sold brought steady prices. Common and fair lots ruled weak, and in many cases the most common were bid a little lower. All descriptions of good, however, remain unchanged at the quotations given below. At 10 a. m. the transfers were very small and the outlook by no means encouraging for a good day's trade. We quote:

HOGS—Quite a boom was had in the market and prices under the stimulus of a brisk demand and lighter supply, advancing fully 5 to 15c per 100 lbs. on all grades, but more especially on lights, which sold at a range from $5 00@5 10 with $5 15 bid for choice, rough-mixed packing of heavy weight bringing from $4 60@4 80, and butchers $5 00@5 15, with $5 25 asked for tops. The supply on sale this morning was only moderate, and from the manner in which buyers took hold the prospect for a thorough cleaning up before the close was encouraging. Some of the more facetious among the operators were inclined to attribute the strong advance in values to the presence of Mr. Lincoln and Jeff Daniels, the latter especially, it is claimed, having an elevating effect upon any society in which he may be thrown. At 10 a. m. values were reported strong at $5@5 15 for Yorkers, 5@5 25 for butchers to extra, and $4 60@4 80 for rough mixed.

Bank Notes.

Business on the levee is only fair, but should a rise take place it would help Southern boats out wonderfully.

The river came to a stand this morning, and it is hoped the channel will cut out more definitely than it has been for some months past.

The Diamond Jo. Line steamer, Libbie Conger, came in from St. Paul this morning with a big trip of people. She returns this afternoon at 4 o'clock.

The New Orleans boat for to-morrow is the reliable Jno. A. Scudder, and the Vicksburg boat is the Commonwealth. Both boats are Anchor Liners.

The Ste. Genevieve is the Memphis packet, leaving to-day at 4 p. m. This is her first trip this season in the Memphis trade and she should be well patronized.

The War Eagle of the Saint's Line rounded to from Keokuk this morning and will return this afternoon. The same line sends the Keokuk to St. Paul this afternoon.

Commodore P. P. Manion's excursion steamer Colorado, Capt. H. G. Carson, has been chartered by Pollack and Stromberg for the Hanlan-Gaudaur sculling contest at the mouth of the Missouri River to-morrow afternoon.

FRIDAY, SEPTEMBER 14, 1883.

IT seems that the Chinese also have among them some DENIS KEARNEYS who howl to the sand lots that the foreigners must go.

THE James Boys' wing of the Democratic party in Missouri is moulting its feathers rapidly. It threatens to wilt away ere the frost ripens the papaws and the persimmons.

THE GREELEY relief expedition has come to need relief in its turn. We wish the Government were well out of this arctic business, but being in it must maintain itself with honor.

IT is a relief to know that the enterprising editor of El Paso who undertook to trade on the grief of the CHURCHILL family is not an American. It is not greatly to his credit, but "he is an Englishman."

IT is to be hoped that Lord Chief Justice COLERIDGE will not neglect to examine the Gallatin jury in the course of his study of our legal institutions. He would probably acquire some useful information.

AN æronaut whose balloon collapsed at an elevation of 8,000 feet says that he came down in nine seconds. We shall not hear of such sudden collapse and rapid fall until a year from next November, when the Republican balloon, which is now about 8,000 miles up in the air, will collapse and reach the ground before it knows it.

PLACARDS announcing the succession of the Comte de PARIS to the French throne have been posted up in divers parts of Paris and promptly removed by the police. The announcement closes with the statement, "*Vive* LOUIS PHILLIPPE II.," and is signed by three Royalist deputies. The Comte de PARIS has much to learn in the art of advertising.

JUDGE PHILLIPS told the *Globe-Democrat* interviewer that his defense of FRANK JAMES "was purely voluntary and an act of charity and humane feeling." He says he could not go back on his word to FRANK. It seems, however, that he found it easy to go back on the solemn obligation he took to uphold the laws as a judge during his judicial connection with the Supreme Court.

THE attempt to settle by friendly negotiation the difficulty between France and China will not be helped by the news of another engagement near Hanoi, between the French troops and the Black Flags, resulting from the attempt of the latter to drive the French from their position. Both France and China are strongly in favor of peace, and have every reason to wish it, but the situation is one in which they seem likely to be driven to war regardless of their wishes.

THE Recorder of Votes gives notice by advertisement of the fact that "nearly all of the house numbers and also many of the names of the streets of the city have been changed," and that voters living in such houses and streets are liable to be stricken from the rolls unless they call in person at the office of the Recorder and bring with them a memorandum of their old and new numbers and street names. The idea of disfranchising a citizen by changing the name of his street is certainly novel.

ONLY yesterday the *Globe-Democrat* had an elongated and dismally profound article pointing the moral of the alleged repudiation of Gov. BUTLER by WENDELL PHILLIPS. This morning the *G.-D.* prints a telegram announcing that WENDELL PHILLIPS is out in a published card wherein he says he would "hail the reëlection of Gov. BUTLER as a vast stride toward relieving the State from the Republican incubus which weighs heavily upon it." Consolations for Republican organs are so unsubstantial and so short-lived.

A WASHINGTON correspondent says the dishonest methods of LANDAULET WILLIAMS are now catalogued among the necessities, if not among the virtues of official life in Washington. Not only the heads of departments, but bureau officers are supplied with carriages, horses and drivers from the Government livery stables. Their families and friends ride and enjoy themselves at the public expense. The cost of these official perquisites is estimated at about $30,000 a year, and the oft-mentioned "Augean stable" business is fast becoming a literal fact in our politics.

DR. FLOOD and JOHN COKER were taken out of jail at Danville, Yell County, Arkansas, and hung by a mob last Saturday. They had been harboring outlaws, and COKER was accused of having led a sheriff's posse into an ambuscade where several men were killed by the outlaws. The mob should have waited and given some aspiring member of the State Supreme Court a chance to instruct a jury that outlaws are "a product of our civilization," and that it is chivalrous to harbor them and only charitable to defend and pardon them. As it is, Arkansas can never know the delight of hearing "the hounds of the law" properly denounced by her highest judicial authority for daring to prosecute a professional robber and murderer.

WHERE WE CIRCULATE.

The claim of the POST-DISPATCH that it has a larger circulation in the city of St. Louis, on each day of publication, than any other newspaper without exception, might lead to the mistake of underestimating our country circulation.

Outside of St. Louis the POST-DISPATCH is sold at the news-stands of all the leading hotels in the principal cities at five cents a copy.

The POST-DISPATCH is sent by mail to nearly every Post Office in the territory tributary to it. But we no longer depend entirely on the Post Office. We are building up our country circulation by a system of carriers' delivery.

We have built up our city circulation largely by a system of carriers, who deliver six copies of the best evening paper in the world at the very low rate of fifteen cents a week for the paper, delivered at the residence of subscribers.

We are now extending that system over the whole country, and the entire area tributary to the trade of St. Louis is now dotted on the map with the points where the POST-DISPATCH circulates. The following list of names will give the public an idea of the extent and rapidity of the increase in our country circulation. At each place agents receive and deliver the POST-DISPATCH for fifteen cents a week.

HAS anybody seen a missing hurricane lying around loose anywhere? There was a hurricane—a genuine ninety-mile West-India guaranteed hurricane—advertised by the Weather Bureau to give one performance in New York last Wednesday, and great preparations were made to receive it. No vessels left the harbor, and even the ocean steamers declined to take the risks, but the hurricane failed to keep its engagement. Gen. HAZEN appeared on the play-bills as manager of the show, which was positively announced to appear nowhere but in New York. The supposition is that the hurricane was broken up on Hatteras, with the completeness of a Shakspearean dramatic company breaking up in Chicago, but the New York ship owners who have lost time and money waiting for it, will hardly be able to sue the Government for having deceived them with a bogus announcement.

THE METROPOLITAN PRESS.

What the Editors of the New York Journals Are Saying To-Day.

By Telegraph to the Post-Dispatch.

NEW YORK, September 14.—The World says: "In advocating the establishment of industrial schools by the State, and not by the Federal Government, and in showing how a protective tariff burdened the laborers of the South, Mr. John C. Calhoun may not have helped Senator Blaine's purposes very much, but he has vindicated, after years of protective experience and observation, what at one time were called the 'peculiar doctrines' of his famous grandfather and namesake, the great champion of State's rights, against the aggressions of Federal centralization."

THE SUN.

The Sun says: "If the Democrats are resolved to identify themselves with the great whisky speculation, and to have their share of the millions of money that are involved in it, there is one short and decisive way of making it known. Let them vote against Samuel J. Randall as a candidate for Speaker. That will settle the business in favor of the whisky men in short order."

THE TIMES.

The Times, speaking of the colored vote, says: "What the Republican policy should be with reference to these voters it is not difficult to decide. They should be treated precisely as any other considerable body of voters are to be treated, with this single difference, that, as they depend more upon leadership than any other class, and as their leaders will naturally be to a great extent the Federal office-holders, who are to them the representatives of the Republican party, these office-holders, so long as the party is in power, should be men of the best character attainable."

THE HERALD.

The Herald says: "The failure of the relief vessel to reach Lady Franklin Bay does not necessarily imply disaster to the Greeley party. Supplies were stored in 1881 within a hundred and forty miles of the station, and others were placed last year at a point which Lieut. Greeley knew might be used for that purpose. If either of these has been reached and found intact, the party will not starve even if they do not find much game and fish. There are boats and sledges at the station, and there is no reason why men may not have been sent to the southward by land or water, or both, in search of relief, or why the station may not have been abandoned as, according to others, it should have been a fortnight ago at latest."

THE TRIBUNE.

The Tribune says of the political situation in New York: "The Democrats are welcome to their hopes and their boasts. The only question which Republicans find it necessary to consider is whether they can nominate a candidate who can poll their full vote in this State. If they can, they will carry the State, whether it be this year or next year, against Democrats united or Democrats divided. If the Democrats please to disagree so that the work of the Republicans shall be easier and the result more certain, very well, but they need not expect a majority in the State, against a full Republican vote, even if they concentrate upon one candidate every New Yorker who has ever called himself a Democrat. A full and united Republican vote means a Democratic defeat, whether the Democrats vote for one man or for fifty."

POLITICAL DRIFT.

WHEN General Hawley of Connecticut is called to the front the Republicans must be growing anxious about Iowa.

POSTMASTER GENERAL GRESHAM does not give Mr. Hatton as much liberty of conscience as the easy-going Mr. Howe did.

SAYS the Brooklyn Eagle: "Dorsey towers above his brethren like a political Saul. He is the one man in the Republican party who dares to tell the truth."

LIEUTENANT-GOVERNOR AMES is not a speech-maker and don't pretend to be one. His little remark, that Governor Butler will be re-elected, beats any two-column Republican stump-speech, however.

FRED DOUGLASS is going to the colored convention at Louisville, after all. It wouldn't boom right, politically, if he were absent. He has probably been labored with, as a week ago he didn't intend to go.

WOMAN'S prayers and woman's tears avail not among the Dakota constitution-makers and advocates of division and admission. The tyrant man has sternly set his face against woman suffrage in the fundamental law.

MR. HENDRICKS has visited Mr. Tilden, and Mr. English has visited General Hancock. To be quite frank, however, we don't think Mr. English desires to run again, and perhaps there will be no frantic effort to induce him to do so.

THE Charleston News and Courier makes the statement that Mr. Tilden agreed to contribute $5,000 to the expenses of the canvass in that State, "that $5,000 were spent on the faith of Mr. Tilden's promise, and to this day Mr. Tilden has not repaid a solitary cent of that which was expended in his name."

PRESIDENT ARTHUR is one of the 130,000 members of the Ancient Order of United Workingmen. He belongs to a New York City lodge and is in full and regular standing. This horny-handed son of toil can now pose as a workingman's candidate.

WOMEN OF THE WORLD.

QUEEN VICTORIA is said to have entrusted the task of writing her life to Miss Keddie, a Scotch woman.

IT is thought that the widow of the Count de Chambord will retire to a convent. She is a devout lay member of the Order of Mount Carmel.

BURLINGTON FREE PRESS: The time of young ladies is divided into two parts. Half of the time they wait for the mails, and the other half for the males.

THE late lamented Marwood got $50 for hanging a man and $75 for hanging a woman. These women have a great deal of distinction that isn't properly considered.

BEFORE a young man can court a Mexican girl he has to tell her parents on the doorsteps of the house what his prospects in life are. If he can fool them then he is allowed to go in and fool the girl.

THE Bismarck Tribune says that a Montana maiden married an editor 60 years old because he had a high forehead. We may all be happy yet if girls begin to give evidence of such discrimination.

THE daughter of Bayard Taylor has until recently been supporting herself as a governess in New York. She and her mother declined a purse of $30.000 raised by New York ladies on learning that Bayard Taylor died poor.

AN aged physician, who practiced much among the ladies, made a large fortune. It was his custom to say to every feminine patient, "Show me your tongue, honey! There, that will do, dear? You will be well in a week, thank God, my dear!"

MRS. JOSHUA SPEED who died in Louisville the other day was a neice of John Keats, the poet, and was educated by Margaret Fuller. Her father, George Keats, came over from England and settled in Louisville, where she was born fifty-five years ago.

THE PEOPLE'S FORUM.

Where the Readers of the Post-Dispatch Get a Hearing.

ST. LOUIS, September 13, 1883.

To the Editor of the Post-Dispatch:

I noticed an article signed "Underwriter" in your columns this day, and in conversation with several other business men it struck us all that the underwriters were making an effort to run the St. Louis Fire Department and the merchants and insurers generally, and we do not see why they make such a howl. They are not compelled to put up with our Fire Department. They have the privilege of not taking such insurance as is offered them or that they seek.

Just let it be known that you want $20,000 worth of insurance and every insurance agent and underwriter in St. Louis will be after you every hour until it is placed, and then the ones that did not get will howl because you gave it to some other person.

I am of the opinion that the merchants should get together and pay insurance into a pool and let the association be formed of none but good, substantial houses, and those houses that do not stand high both in financial standing and in morality be not admitted to what we might call a Merchants' Protective Association, against such a howling board of underwriters that now exists in St. Louis and raise rates on account of every little loss. Are they not like merchants that may make one year and not another? Suppose that a merchant that lost money in 1883 should advance his prices in 1884 to make up for 1883 and not decrease his expenses for 1884, but expect it all out of his customer, where would he be and what would be the extent of his business? He would be lost.

I think we have had enough of this underwriter mixture. Let the Mayor and Council settle the matter as to who shall be Chief of our Fire Department. SUBSCRIBER.

A New City Hall.

ST. LOUIS, September 13, 1883.

To the Editor of the Post-Dispatch:

Never in the history of our city has she given so many signs of emerging from an overgrown village to the proportions and demands of a metropolitan city as at present, with our new streets, which will be the best in America, the erection of our Exposition Hall, now progressing, which will be an ornament to our city and an evidence of the enterprise of our citizens. But now let the good work go on. Why not take the Washington Park, on Market and Twelfth streets, which is too insignificant for a park, and erect a City Hall on the Market street front that would be a credit to our city, to cost say a million dollars, and erect on the Clark avenue front a central fire engine house. Our present barn-like City Hall would disgrace a city of 10,000 souls, and its existence is studiously ignored by our people in showing strangers the sights of St. Louis. There is no legal impediment, I learn, in thus disposing of the ground, and the large amount of valuable papers deposited there require a fire-proof building that would not only insure their safety, but would be an ornament to our city. St. Louis must get over the idea that we must "pay as we go" and leave nothing for posterity to provide for, as we could easily issue a million of City Hall bonds for a term of twenty or thirty years at 4 per cent and find a ready market for them at par or a premium. I indulge the hope that some of our live, go-ahead citizens will take up thee subject and push the matter to a consummation. Respectfully,

M. A. WOLFF.

Judge Phillips and the James Case.

ST. LOUIS, September 14, 1883.

To the Editor of the Post-Dispatch:

The censure of Judge Phillips, one of the Supreme Court Commissioners, for his action in being one of Frank James' counsel, seems to me to be undeserved. He was retained before his appointment as commissioner, and it is easy to see that his retirement from the case may have worked great harm to his client—a consideration that will always have immense weight with a conscientious lawyer.

The question is: Is the rendering of the service incompatible with Judge Phillips' official position? First, it has not interfered with his official labor, inasmuch as the James trial occurred during the vacation of the Commission and the Supreme Court. What use he makes of his energies during that time does not concern the public.

Secondly, a commissioner is not a judge of the Supreme Court. His employment is only a temporary one. The commissionership cannot last longer than two years by the express limitation of the act creating it, and it may end sooner if its work is done sooner. In strictness it is nothing else than a committee of three lawyers appointed to do an assigned judicial job. The James case cannot come before it. There is, hence, no reason in law or in propriety why Judge Phillips was bound to throw up the case if, in his own judgment, it would prejudice his client. If there was no reason for him to do so, then it would, or at least might, have been wrong to do so.

AUGUSTUS W. ALEXANDER.

A Legal Abuse.

ST. LOUIS, September 13, 1883.

To the Editor of the Post-Dispatch:

One of the many reasons why a Supreme Court Commissioner should not practice law is that some one or more of the jury before whom he is trying a case may have suits pending in the Supreme Court which may come before the Commissioner. It would occur to some jurymen so circumstanced that they could win the favor of the Commissioner by helping him to gain the case he was trying before the jury. It matters not how well intentioned the Commissioner may be nor how correctly he may pass upon the juror's case when it comes before him, the question is, to what extent will the juryman be swayed in his verdict by his hopes of favor from the Commissioner. What matters it in such a case that the Commissioner receives no pay from the man he serves before the jury. The Commissioner is trying to win his case, pay or no pay, and the juror having a case which may soon come before the Commissioner is strongly tempted to help him. The same temptation would beset witnesses in the case who had cases in the Supreme Court. The practice of law by a Supreme Court Commissioner tends directly to the perversion of facts and to dishonest verdicts in all such cases. X.

The Rights of Colored Citizens.

ST. LOUIS, September 12, 1883.

To the Editor of the Post-Dispatch:

Please settle a dispute. Would a colored man be permitted to occupy a seat in the parquette of our first-class theaters? Also, can a saloon-keeper refuse to sell a drink to a person because he is black, and then be protected by the law? and oblige TWO SUBSCRIBERS.

[A saloon-keeper can refuse to sell liquor to any man, white or black. The test case of Pierce against Spaulding, of the Olympic Theater, in this city, indicates that the courts would probably sustain a manager in refusing to permit colored people to occupy parquette or dress-circle seats.—EDITOR POST-DISPATCH.]

What a Grocer May Do.

ST. LOUIS, September 12, 1883.

To the Editor of the Post-Dispatch:

To decide a bet between two regular subscribers of your valuable paper, will you please state in this evening's POST-DISPATCH the law in the following case, to-wit: I am a grocer, a man (white or black) comes into my store to buy something and because I have a grudge against him I refuse to sell to him, although he conducts himself as a gentleman. Can he prosecute me or not for refusing to sell him the goods.

The Lost Street.

DE SOTO, MO., September 13, 1883.

To the Editor of the Post-Dispatch:

If not asking too much would like to ask you through your valuable paper if there is such a street as Fifth street in St. Louis. If you will answer you will greatly oblige an applicant and a subscriber to your paper. Respectfully,

G. WOODRUF.

[The ordinances of the city of St. Louis, the name on the street lamps, the ineffectual protests of the merchants and the files of the POST-DISPATCH show that St. Louis no longer has a Fifth street, but that Broadway is its name.—ED. POST-DISPATCH.]

The Law as to Chicken Thieves.

ST. LOUIS, September 14, 1883.

To the Editor of the Post-Dispatch:

Being unfortunately a resident of the West End, where police are seldom seen excepting in saloons, and where chicken stealing and other thieving is carried on nightly with impunity, I would like to know if I would be justified in "setting away" with some of those vagabonds, without other proof against them than to find them on my place after dark? VIGILANTER.

[In the present unsettled condition it might be be safe to use buck-shot on a chicken-thief, but our advice would be to try bird-shot first as a warning.—EDITOR POST-DISPATCH.]

A Chance to Advertise.

EAST ST. LOUIS, September 12, 1883.

To the Editor of the Post-Dispatch:

A few months since I saw an advertisement of a party who resilvered mirrors in your journal. I have lost the paper and forgotten the address. Will you or some of your readers kindly oblige a poor man by answering through the "People's Forum." E. St. L. R. R. EMPLOYE.

Good English.

ST. LOUIS, September 14, 1883.

To the Editor of the Post-Dispatch:

Please answer the following through the daily POST-DISPATCH, and oblige a reader: I bet the word "transpire" means to "sweat." Do I win or lose?

[Old Noah Webster says that to transpire is "to emit through the excretorie of the skin," and we guess that he meant to say 'to sweat.'—ED. POST-DISPATCH.]

Who is J. W. Wilson?

ST. LOUIS, September 13, 1883.

To the Editor of the Post-Dispatch:

Is the J. W. Wilson who is so aggrieved at the action of the Republican party the same J. W. W. who asked Circuit Clerk Vogel to put him on his pay roll as a dead head and willing to report every morning on parole? I agree with him that Republicans are ungrateful. I nominate him for gauger forthwith. O. B.

The Right to Vote.

What Missouri Needs.

From the Vandalia (Mo.) Argus.

The State of Missouri needs a few more papers like the POST-DISPATCH, frank and fearless. This thing of cajoling a man because he is a Republican or a Democrat is all a mistake. If he is deserving, praise him, and if he is not, have "sand" enough to express the facts.

Bob and Frank.

From the New York Graphic.

Mr. Robert Ford remarks, "If anybody had killed my brother as I killed Frank James' brother I should have his life; but it may be that Frank has had trouble enough." It is earnestly to be hoped that one of Frank James' coming trials, if he has any, will result in the gentleman's conviction and execution, for a more cruel and cowardly murderer never lived; but if he gets his freedom a quiet and persistent effort ought to be made to turn him and the Ford brothers alone into a ten-acre lot, that they might fight out their differences according to their favorite methods. The frankness of Robert is worthy of all praise, and the fight suggested would certainly be in accordance with the spirit of the age as presented in the most popular literature and exemplified in the success of Messrs. Slade, Mace, Sullivan, Mitchell, and other leading statesmen.

St. Louis and Chicago.

From the New York Herald.

St. Louis is not able to compete with Chicago in the glory of its candy store windows, in the size of its elevators and feet, or in the muscle of its politicians. But St. Louis is the head center of philosophy in this country. A St. Louis journalist this week begins a report thus: "The work of iconoclasm is not endemic but universal, and the breaker of our images presents himself most inopportunely as to place and season, proving that our idols are of clay, our ideas friable, and that our worship is wasted on a thin substance." This rendered into Chicagoese means: "Johnny Mulligan, the statesman, went into Mulhooley's saloon, and as no one would fight him he cleaned out the whole crowd."

What is the Matter with Wheeler?

From the Canton (N. Y.) Commercial Advertiser.

It is reported that Mr. William A. Wheeler is troubled with insomnia. The town clock in Malone is not allowed to strike because it reminds him of the revenges of Time, and will not permit him to court the forgetfulness of sleep. And now it is said the youthful lovers of that beautiful village must give up their moonlight meander on their favorite promenade, lest the provoking notes of gentle dalliance disturb the sensitive nerves of his restless ear.

Musical Development in Indiana.

From the Indianapolis News.

Back of all the surface indications and impulses is a musical feeling and taste, the development of which is marked by such displays as this. It is the outward and visible sign of the change that has substituted Schumann's "Traumerei" for "Hell on the Wabash" and the overture of "Parsifal" for "The Arkansaw Traveler."

Justice to Logan.

From the Chicago News.

Senator Logan denies that he said to a Sioux City reporter "Me and him was up to see Sitting Bull," referring to Dawes' trip with him into the Indian country. What he did say was "Him and me was there." We cannot too heartily applaud the Senator's objection to being misquoted upon the eve of a great political struggle.

The Census.

From the Chicago Times.

A Washington correspondent says: "It is generally understood that an effort will be made to have the Census Bureau made a permanent institution." There is no doubt of the necessity of this, if it is the intention ever to complete the last census.

Not Funnel-Shaped.

From the Sedalia Democrat.

It is suggested by the New York World that "the prohibition cloud is covering a great deal of the political horizon in Missouri at present." But the cloud aforesaid is not funnel-shaped, and no danger is apprehended.

A New Play.

From the New Orleans Picayune.

"Facts, or the Little Hatchet," is the title of a new comedy in which Mr. W. J. Florence is to play Tom Ochiltree. Mr. Florence is now rehearsing with Eli Perkins and George Alfred Townsend.

The Sun's Satellite.

From the Chicago News.

Mr. Dana's candidacy is in perihelion. After the next full of the moon it will travel away from earth at the rate of 16,000,000,000 miles per minute, with a tail 7,000,000 miles long and 400,000 miles broad.

Hayes Elected.

From the Chicago News.

R. B. Hayes has been elected president of the National Prison Association. The telegrams neglect to give the name of the other candidate, who was probably counted out.

All the Same.

From the Providence Press.

Missouri catches murderers and lets them go. Connecticut don't catch 'em—but lets them go.

Pugilists Who Fear to Meet.

From the New York Star.

Perhaps Slade and Mitchell could be induced to play a game of checkers with soft gloves.

DeSOTO'S BONES.

The Grave of the Spanish Explorer Found at Old Town Lake.

An Arkansan Brings the Sacred Remains to St. Louis.

His Story of the Discovery of the Mid-Stream Tomb of the Marvelous Knight—The Relics Now on the Road to Washington—Articles Found in the Grave—The Princess of Cofachiqui's Pearls.

Geo. Townsend, of Helena, Ark., was at the Southern Hotel yesterday. He arrived here the night before and left last night for Washington. He had a box with him which he said contained the bones of Ferdinand DeSoto. To a POST-DISPATCH reporter who called at his room he showed the bones in their time-perforated and withered-looking condition. The whole of a human frame was there except the hands, part of the feet, a thigh and some of the smaller bones of the body. The skull was quite perfect, except as to the lower jaw, and was plainly that of some high-minded and intelligent person. Its interior was filled with black loam and sand, the removal of which Mr. Townsend said was impossible, as in the event of any attempt being made

TO CLEANSE THE SKULL

the chances were entirely in favor of its falling to pieces. The owner of these precious bones, whose discovery, if their genuineness can be established, should create a great sensation, throughout the civilized world is a quiet, easy-going gentleman who seems to appreciate the value of his property, and only reluctantly gave information about it when approached by the POST-DISPATCH reporter.

"You see," he said, "my idea is to have the matter thoroughly sifted out and the facts in the case investigated. I am now going to hand the bones over to the Smithsonian Institute at Washington. I have not sold them. No, although I was negotiating with Senor Barca, the Spanish minister, before he committed suicide in New York. See, here I have five letters from Senor Barca on this subject, the first as long ago as May 14, 1882, and the last a few days before his death. He said himself and his king were very anxious to obtain the remains of their distinguished countryman for honorable and distinguished interment in the home country whence he sailed nearly three centuries and a half ago to discover the Mississippi."

"You have not heard from the King of Spain since?" the reporter suggested.

"No, sir; Senor Barco and his sovereign both feared that they might be imposed upon, and were, therefore, very cautious in their negotiations. I asked $50,000 for the remains, and they seemed willing to give that amount, but wanted

THE GENUINENESS OF THE BONES

made apparent before closing the contract. I have been for the past year studying and searching the matter out myself, and believe that now I can make the whole thing as plain as a pike staff."

"When did you first get possession of the bones?"

"A year ago last April. Two darkies, digging along the shore of Old Town Lake, a few miles from Helena, turned them up at a depth of three feet in the sand and loam. The grave of the Spanish conqueror thus disturbed might have been lost forever, but for the discovery among the bones of a large number of pearl beads and a large silver cross, which the darkies offered to sell me. I saw through the deep incrustations on the cross that it was Spanish in its workmanship, and when the negroes told me they found it near Old Town Lake, where so many valuable archæological discoveries have been made, I gave them $5 for the cross and beads and had them take me to the spot. They had scattered the bones in a lively manner, and the place where the grave had been was disturbed beyond recognition by the darkies' spades. Fragments of the trunk of a tree were present in the loam and two huge spikes of rude workmanship that looked as if they might have been hastily turned from a forest forge, were there. As I saw these things the thought suddenly flashed into my mind that

I HAD FOUND DE SOTO'S GRAVE,

and now I am convinced that I have, and that those sacred bones in that box were once the first Adelantado of Florida, who sought fortune as Lew Wallace said of Cortez and his band, by following the sun around the earth, and who met a fate in the New World somewhat similar to that of Prince de Leon and one-eyed Philip de Narvaez."

"The silver cross," said Mr. Townsend, "I have had carefully examined by experts who declares that it came from some Castilian workshop of the time of Henry VIII. It is an immense affair weighing nearly two pounds, and is such a personal ornament as was worn by the cavaliers of Ferdinand and Isabella's time, when religion was the rage and a crucifix displayed upon the breast was taken as the badge of a true Christian and a brave warrior. The pearls which I have have been pierced by red hot wires, and except as substantiating my claims to the bones are comparatively worthless. But if you know anything about the history of De Soto's march through the forests of Florida and along the Washite and Red Rivers as he pursued his way in the direction of the "Land of Gold Hats" you will remember that shortly before the terrible battle of Mavilla, the Princess of Cofachiqui placed with her own hands

A NECKLACE OF PEARLS,

taken from her own shoulders, upon the shoulders of De Soto. These pearls had holes burned through them, as have mine. The spikes were part of that treasured stock taken from the timbers of the old Spanish vessels, and that were poorly spared to fasten the heavy lid upon De Soto's green oak coffin before they dropped the body into the waters of the Mississippi. All these articles I have sent on to Washington two months ago. It is a wonder to me the discovery did not leak out long before this, but I think there is a desire on the part of our Government to get and retain possession of these valuable relics before any great noise is made about them."

"WHERE WERE THEY FOUND?"

"That is the clinching argument in the case," Mr. Townsend said enthusiastically. "Luis de Norcoso, who succeeded the unfortunate cavalier in command, tells that DeSoto's burial place was at the base of precipitous hills, perhaps two hundred feet high. Here at the water's edge, forges were provided, vessels built, arms repaired, horses shod, and here DeSoto was entombed. The Mississippi flows to-day perhaps thirty miles east of this spot. Its former channel, of DeSoto's time, is occupied by 'Old Town Lake,' and it is in this lake that the body of the Spaniard reposes. The name given the lake by Indians and then by white people is significant of facts to which I advert. The Spaniards built the 'Old Town', left on the lake's western margin at the base of Crowley's Ridge, nine miles below Helena. Then the restive river, always moving east, changed its course and chose to run along the front of Gov. Alcorn's estates in Coahoma County, Mississippi. The depth of the lake is that of the river, less the thickness of soft sediment, and DeSoto's body, encoffined in a green tree, and weighted as it was and sunken in the bottom of the river, reposed until now in the mud near the lake's margin, where it is to be hoped it will be given a proper burial in the Congressional grave-yard at Washington or

AMONG DEAD KINGS AT MADRID.

"Twenty-three years ago I visited Old Town Lake with the late Gen. Pillow, who owned there, before the war, a magnificent plantation. Reading in the descriptions of DeSoto's burial place, and the spot at which the Spaniards were encamped while building boats in which to reach Mexico, I was thoroughly satisfied that the lake had been the river, and that the spot described by those who accompanied DeSoto would have been necessarily identified by modern writers if the Mississippi had not been deflected, perhaps three hundred years ago, from its original channel. In view of these facts I was impelled to make a great many visits to Old Town Lake and to spend much time along its shores, where hammer-handles and gun-stocks have been unearthed, and where burnt earth and charcoal, heaped up by blacksmiths were then to be seen.

"Capt. John Cowdon, president of the New Orleans and Barratari Ship Channel Company, who has been over forty years a navigator of the Mississippi, has often visited the spot. He had read Theodore Irving's translation of recital of facts and incidents made by those who accompanied De Soto, and after life-long experience in wrecking sunken steamers on the Mississippi and its tributaries was often heard to urge of raising De Soto's body in its unique coffin from the bed of the river. He was of opinion that the coffin and remains would be still found there undisturbed. The coffin, however, has gone, all except bits of its wood that I gathered, and I now have at my home in Helena, and the bones as far as I was able to pick them from the clay, are

FAIRLY PRESERVED.

Not more than two years ago a distinguished archæological writer urged that the task of recovering De Soto's remains be assigned to Capt. Cowdon by the Government, and indeed that the latter go further, and make the Captain sailing master of an expedition to explore the terram incognitam, believed to abound in many wonderful relics of the aboriginal race, and with a breadth of fifty miles extending 1,200 from Cairo to the sea.

"The discovery will have the effect of exposing many laughable blunders on the part of self-asserted antiquarians. It will make the great picture of the discovery of the Mississippi in the Capitol at Washington a subject of widespread ridicule. De Soto, as represented in this picture, appears at the base of this great mound at Memphis of which I was talking. He bestrides a steed, fat, full, sleek and round, as if he had just emerged from Bonner's or Vanderbilt's stables. After a hard winter and fierce fighting, and a fatiguing march from Tupelo, Mississippi, De Soto's winter quarters, to Memphis, it is hardly probable that the Spaniard came with such regal pageantry and in such gorgeous apparel, or mounted on such a prodigious curveting steed, in the grim presence of the Chicasaw chieftain. To one at all conversant with the fortunes of De Soto and his followers

NOTHING CAN BE MORE ABSURD

than this fancy sketch. It is needless to say that even if absolute realism in such a picture be impossible, outright absurdities should surely be abhorred. When I have said that artists who would tell of the sad, solemn burial of the resolute, daring adventurer should visit Old Town Lake and contemplate the holy stillness that broods over the motionless water and over the precipitous bluffs and dense, sombre, silent, overhanging forest, and when I have insisted that De Soto's burial should be painted as it was, and not as vague fancy represents it, I am referred to this great picture on the wall of the rotunda, in which I see a gaily plumed cavalier on a curveting steed, doing obeisance in the presence of savage royalty. I only hope that the picture of De Soto dead is not as absurd as that of De Soto living, or as that statue of Columbus hard by, which makes the discoverer a god carrying the world "in the hollow of his hand."

"A tasteful and accomplished woman of Huntsville, Ala., Mrs. Lide Merriwether, whose productions adorn the pages of our choicest publications, owns a statuette, carved with infinite skill and painstaking care out of locust wood, almost as hard as marble. The pediment is of blackjack, much of the bark still adhering to that portion of the base left by the tooth of time. The knight, as represented, wears a plumed Spanish sombrero, and his apparel and straight, short sword is that of a Spanish gentleman in the days of Queen Elizabeth.

THIS STATUETTE

is said to have been found in a decayed box full of white sand by a negro, at the base of a mound a few miles below Memphis. It was sold to Dr. Rodgers in exchange for a calico dress. Of course this bijou of art, fifteen inches in height, is assumed to be a perfect picture of De Soto, and is priceless. It was made, as supposed, by one of De Soto's followers while the Spaniards were in tedious winter quarters at Tupelo, brought to Memphis and deposited there, the ingenious carver expecting to recover it on his way from the West. Whatever the opinions of archæologists as to its antiquity and authenticity, this old statuette is surely a masterpiece of patient toiling art, and should be seen by him who would fasten the memory of De Soto in stone or upon canvas. The artist who wants to be true to his subject should bend reverently when standing at the base of Crowley's Ridge, over the margin of Old Town Lake, where these bones I now have were exhumed. Its waves driven by soft winds creeping up from the gulf were wont to sigh a sweet requiem in softly rippling melancholy cadences over the mortal remains of the marvelous knight."

OLD TOWN LAKE,

the POST-DISPATCH reporter is informed by a gentleman well versed on this subject, is the ancient Indian village of Guachoya De Soto's last halting place on the bank of the river. This and the other circumstances related would tend to give a strong coloring of truth to Mr. Townsend's statements. If, as he claims, he has De Soto's bones, there will be great rejoicing in the antiquarian world; and once more will be revived the brilliant and daring achievements of the Catholic cavalier, who, sailing from Spain in 1538, after four years' continuous contention with the savages of the new world in their thick and tangled forests, laid him down to die at the edge of the river he was the first white man to look upon, and enclosed in the hollowed trunk of a great oak was dropped into its mad stream one May midnight in 1542, Moscozo Don Gallegos, Juan Perez and Father Alvarez quietly singing his requiem beneath the new and silent stars.

BERTHA SMITH.

The True Story of Why She Ran Away From Home.

And Why She Will Not Return—Statements Made by Boarders—The Home—A Harsh and Severe Father—The Churchill Case.

Bertha Smith, the girl who is missing from 2809 Morgan street, has not returned to her home yet, and her parents have not heard from her within the past three days. Since the girl has not shown herself or revealed her whereabouts, the cause of her departure has been the subject of much discussion among the people who know the family. The father is said to be the cause of the disappearance, as will be seen from the interviews published below. They come from responsible persons, who do not desire their names to be printed, but who will substantiate, if necessary, their statements:

A reporter of the POST-DISPATCH meeting a friend on the street yesterday was thus accosted:

"Say, why hasn't the POST given the true version of that Bertha Smith case? Every one who has read the reports so far given has been led to believe that the girl ran away from home merely because she disliked the study of music. Her father has given the impression that it was a 'childish freak' and attempted to throw the blame upon some outside parties, especially a young married couple living on Finney avenue. This is a grave injustice to them as well as to the girl herself. You go out and see them and also have a talk with the gentlemen who room in the house and you will discover that Bertha's disappearance was far from being the result of a childish whim or caprice, and that it is not the least surprising she remains away from home."

The reporter, acting upon the suggestion, wended his way toward the house on

FINNEY AVENUE,

and, arriving at the door, rang the bell and asked to see the gentleman of the house. Upon making known the object of his visit the gentleman said to the reporter: "Now, first of all, let me assure you that I know absolutely nothing of the whereabouts of Bertha Smith. The letter she wrote to her father last Monday, and which he refused to publish in full, was post-marked East St. Louis, but I scarcely think she is there. Some persons must be in collusion with her, and, knowing all the circumstances of the case, are assisting her in her efforts to remain away from home."

"Did she visit you frequently?"

"No. She came to my house the Thursday before her disappearance and asked to see my wife. She was shown to her room. She immediately began to cry and begged to come and live with us. She said her father had treated her so badly and whipped her so cruelly that she could not live at home any longer. She then removed the body of her dress and showed my wife three or four large red welts on her back that she alleged

SHE HAD RECEIVED FROM A WHIPPING

her father had given her that morning because she did not know her musical exercise. She said he whipped her with a stick; that he stood over her constantly while she was practicing, and every time she struck a false note he would hit her. He kept her in continual dread, and made her so nervous that she could not play when he was around. She further said she could not and would not stay at home, and unless my wife would take her and let her live with us as a servant she would run away. My wife advised her to go back home and try to do her work to please her father, telling her that it was very foolish for her to run away, as she would only regret it after awhile. She staid here and cried and begged and implored to remain, but my wife ultimately induced her to go home. Two days afterwards she disappeared."

"What about Mr. Smith's statement that your wife had put false notions into her head?"

"Why that is simply absurd. For a month before I was married I had rooms in Mr. Smith's house. Bertha made up the rooms, and it was there that I first met the child. I took a fancy to her, and occasionally gave her candy, small pictures and the like. After my marriage I went to the house one day to see two of my friends who were living there, and

SHE ASKED PERMISSION TO COME OUT

and visit my wife. I told her to come and spend the day if she wished. This she did with her father's consent, which was reluctantly given. My wife took her down town with her to purchase a few articles, and told me upon her return that Bertha acted as though she had been raised in the country and had never seen a large store. With the exception of the Thursday I have alluded to, that was the only time Bertha was in my house or in company with my wife."

"What were her duties at home, when you lived there?"

"Well, so far as I know, the girl was worked very hard for one of her age. She was out of bed by 6 or 6:30 every morning. Between that and breakfast time she practiced on the piano. Some of the boys can tell you about that. After breakfast she made up one or two rooms, then she went to school, and at noon would return and finish her household work, then back to school until 3 o'clock. Then she would dust around the rooms, wash the towels and finish any work she had left undone at noon. She would then practice her exercises for an hour or so, and have about an hour's recreation before her father's return in the evening. After her evening meal she would perform her exercises

UNDER THE SUPERVISION OF HER FATHER,

and about 9 o'clock be sent to bed."

"Have you ever seen her father whip her?"

"No, but I have heard him, and holloaed at him once or twice for God's sake to stop it. The boys in the house have threatened on several occasions to interfere and whip Smith if he did not stop it."

The reporter learned that the "boys" referred to were three other gentlemen who had rooms in Mr. Smith's house, and after looking them up, ascertained that the facts stated above were true.

"Why, see here," said one of the gentlemen, "you reporters have all been hoodwinked by Smith. It was an infernal shame the way in which that man treated his girl. We could hear in the second story the slaps and whacks he would give her while she was practising. He was eternally yelling at her, and I should think so confused the child that she scarcely knew what she was doing. Smith knows that he has treated her shamefully, and, furthermore, knows that we who live in the house are aware of it. He has made apologies to us from time to time for disturbing us, saying the child was stubborn and that he had to use severe means to accomplish his ends. I do not blame the child a particle for running away. The only wonder is that she has stood it so long."

Another of the gentlemen being questioned in regard to the affair, said: "I do not care to be mixed up in this matter one way or another, but when I saw Smith endeavoring to cast the odium of this affair on my friends it made me very indignant. I can corroborate everything that has been told you by my friends and further add that the maltreatment of the girl has been so great and so aggravated that it would be a marvel to me should she return home of her own free will. I feel sorry for her mother, who is a lovely, amiable woman, but that she should cherish any love for her father is a thing scarcely to be expected."

THE CHURCHILL CASE.

Since the explosion of the Caldwell theory there is little worth mentioning in the case of the missing Mary Churchill. The young lady has not been heard from, nor have the people who know of her whereabouts had the humanity to communicate with her parents. Col. Churchill said this morning that there was absolutely nothing new in the case. He said the only course he could pursue would be that of constant vigilance; that he would work out every clew and theory that would be presented until he struck the one which would lead to his daughter's recovery. Col. Churchill is daily in receipt of letters from persons who claim to know where Mary is, but who carefully refrain from signing their names or giving any clew to the supposed location of the young lady. He said this morning as he handed one over to a POST-DISPATCH reporter that one of his greatest aggravations was the receipt of these letters. The letter received to-day reads as follows:

ST. LOUIS, MO., September 13.

Col. Churchill—As a friend I will tell you whar your daughter is. She is in Chicago. I would give you my name but owing to the position I hold, I cannot do so.

YOUR SYMPATHIZING FRIEND.

"I can't understand," said the Colonel, "why a person who professes to be a friend, and to know where Mary is, should not be more definite in his announcement. I can't tell whether the letters are from a crank or from a person who knows something, consequently I have to let the matter drop." A man in Springfield, Ill., writes, signing himself "F. J. R." asking Col. Churchill how much he will pay for information leading to Mary's recovery, but vouches no information at all. The family again request anybody who has information bearing upon the subject of the disappearance to come forward.

TWO ARRESTS.

A Confirmed Letter Writer and an Old Time Sneak Thief Run In.

Last night Detectives Lawler and Desmond arrested a man who gave his name as P. D. Finnegan, and who was arraigned to-day in the First District Police Court on a charge of vagrancy. During the past two months reports have been repeatedly made at police headquarters by various persons who received begging letters. Several of these were turned over to the department and inquiry begun. Among other complainants was Mrs. Mayor Ewing, who, a few days after her arrival in this city, received several letters begging her assistance to pay rent. The letters directed the money to be addressed to "Mrs. Catherine Finnegan, 2803 North Eleventh street, first floor, back room."

Another letter was turned over by the proprietress of a house of ill fame, who stated that she regularly received these appeals for charity and that the letters showed a knowledge of her private affairs, which was exceedingly annoying to her. The matter was placed in the hands of Desmond and Lawler, who traced him to several houses in the northern part of town and finally located him at 908 St. Louis avenue, where he had four rooms comfortably furnished. Yesterday he was caught at the Post Office, when he pleaded for mercy and said that he would go to work if he was given another chance. Several letters were taken from him and held as evidence. The officers soon found a third and fourth letter and took Finnegan in charge. He admitted having written numerous letters to people and to-day was fined $100 on a charge of vagrancy. Finnegan is a man of good education and writes in a style equaled by few business men in this city. In the daytime he made the rounds of the hotels stealing paper and envelopes with which he answered all characters of personals in the papers and wrote to citizens for assistance.

Charles Wagner alias Nolan, an old-time burglar who has been operating in the East for a long time, was arrested last night in this city by Detectives Lawler and Desmond. He had not visited the city for seven years, and only a few hours after his arrival yesterday he was recognized by the officers and locked up. When searched two baggage checks from Indianapolis, Nos. 828 and 593, were found in his possession. The baggage master was notified, and Wagner will be held to await developments.

Daily Fire Record.

An uncautious person took an open light near a barrel of gasoline in John W. Firm's grocery, No. 2210 Franklin avenue, at 8:18 last evening. The burning gasoline burst into a wide flame which extended to the roof. The entire front and rear of the building was damaged. The stock was nearly all destroyed. The insurance on the building is not yet ascertained. The stock was insured for $1,000 in the Westchester, of New York. The building was owned by Robert A. Barnes.

There was also some loss on the one-story brick building, 2208½ Franklin avenue. The building is occupied by P. Jansen and owned by J. Siglingale. A show-glass window was broken. The building was insured for $500 in the St. Louis Mutual. There was also a small loss on stock, which was insured for $800 in the Franklin Mutual.

Some boys of deficient Sunday-school training at 1:28 p. m. yesterday started a fire in the loft of the two-story frame stable, rear of No. 2121 Adams street, used by Richard Nagel and owned by Wm. Clark. The building was damaged about $35; not insured.

QUEER APPETITES.

Strange Dishes of Different Countries and Different Ages.

"Man is what he eats," says the German proverb. Were this true, and could we solve the problem of diet, it would almost amount to the rediscovery of Paradise. Omnivorous man can hardly be charged with neglecting any of the sources of food supply, for there is scarcely an organized substance that is not used to sustain life by some portion of the earth's inhabitants. Nor has the art of cooking been neglected. From its birthplace in Greece, it advanced with other arts until the nation sunk into decay. Passing then to the Romans, gastronomy attained a magnificence that is almost incredible. Apicius, after having spent millions in the gratification of his palate, and finding that he had only about $250,000 left, committed suicide for fear of starving to death.

BANQUETS

were given at Rome with hundreds of courses, a single dish sometimes containing the brains of 500 peacocks or the tongues of 500 nightingales. Pollios chopped up a couple of young slaves every week in order to improve the flavor of his carp. Domitian actually assembled the Roman Senate in special session to vote on the merits of a new sauce which he desired to try on a fat Mediterranean turbot.

A cook in those days could often earn $1,200 a day, which sum, Petronius remarks, would have sufficed to hire a dozen philosophers for a year. Pyttilus, a Roman glutton, wore an asbestos shield fitted to his tongue and bribed the cooks to send up the dishes red hot, so that he could eat the choicest portions while the other guests were waiting. Aristolenus wished that he had the neck of a crane so that he might prolong the pleasure of deglutition. Tacitus tells of a particular dish called the Shield of Minerva, the ingredients of which cost $72,000.

DURING THE DARK AGES

cooking, like learning, was confined to the monasteries, and the greatest miracle in their estimation must have been the feeding of the five thousand with five loaves of bread. Erasmus tells of the prior of an abbey who instructed his major-domo to reduce the accustomed number of dumplings for the sake of Good Friday: "Make only ten to-day," said the pious prelate—"but," after some reflection, "you can make them—a little larger." The revival of cooking is due to the Italians. Catherine de Medicis introduced the art to France, where under the fostering care of the court it grew to such an absurd extent that Vatel, the cook of the great Conde, killed himself because some fish did not arrive in season. The kitchen of Louis le Grand swallowed up twenty per cent of the French revenues. Cardinal Fesch invented a plan of giving a zest for his piquant dishes. He would let fall some appetizing dish in the presence of the guests. Amid the murmurs of disappointment an exact counterpart of the destroyed delicacy would be introduced and received with acclamations by the guests of the wealthy churchman. The Revolution was the means of spreading

THE ART OF COOKING.

The famous cooks employed by the royal family and the nobility were thrown out of employment, and had to depend on the public for support and maintenance. Restaurants soon became popular, as is evidenced by the fact that in less than twenty years after the establishment of the first one their number had increased to over 100.

Prior to 1514 gastronomy was at a low ebb in England. In that year turkeys, carp, hops, pickerel and beer were introduced by Leonard Maschal. The city of London treated George the Third to a banquet of three hundred and fourteen courses at an expense of $130,000. Since Cleopatra gave her noble lover dissolved pearls to drink few have equaled the fair but frail Mrs. Sawbridge, who, to show her contempt for an aged admirer, placed the hundred pound note that he gave her in a sandwich and ate it.

The bill of fare must have been a matter of considerable interest to Cardinal Dubois who called on the dying Fontenelle at his boarding-house. The landlord announcing asparagus for dinner, and asking instructions in regard to the desired sauce, provoked an animated controversy between the two dogmatists. Fontenelle insisted on cream, the Cardinal on melted butter, till the landlord suggested a compromise—he would divide the material and use a separate sauce for each half.

FONTENELLE

was not destined to eat that dinner. A stroke of apoplexy carried him off before it was ready. The Cardinal recognized the sad fact with a paroxysm of grief, then rushed to the landing and shouted down the memorable words, "Butter-sauce for the whole lot!" The old saying that what is one man's meat is another man's poison is realized in the opposite tastes of people.

The Englishman will not eat a squirrel but will gloat over a meal of barnacles and periwinkles, the latter a species of sea snail that adheres to the rocks. The New Hollander relishes a feast of decayed shark, yet looks with horror on bread and butter. The Japanese have a prejudice against milk and beef, but will enjoy a stewed or roasted rat. The Turks shudder at the thought of eating oysters, and the young ladies who visit our slaughter-houses to drink the fresh, warm blood would inspire a Hindoo with a cannibal terror.

It is erroneous to suppose that cannibalism has become quite extinct. Many of the South Sea Islands are infested with secret anthropophagi. In 1873 the Chasseurs d'Afrique captured a Kabyle on the plateau of Algiers who was in the act of

EATING ONE OF HIS VICTIMS.

They released him, however, when they found that his dinner had only been a French settler.

Pythagoras was violently opposed to the use of beans, and some of his followers permitted themselves to be cut to pieces sooner than cross a bean-field. The Romans, however, made pork and beans a strictly classical dish by eating it during the calend in honor of the golden Carna. The Digger Indians of the Pacific slope rejoiced in the great locust swarms of 1875 as a gracious dispensation of the Great Spirit, and laid in a store of dried locust powder sufficient to last for years.

The Chevalier Moulet, while traveling in Campeachy, took up his quarters at one of the best hotels in the country. His first meal consisted almost entirely of a strange fish that the waiter called cazone. Strolling along the beach in the evening he observed a fisherman towing behind his boat a hideous sea monster. On asking its name the man replied: "Don't you see its a cazone. Surely enough cazone was only another name for a shark of the man-eating species.

THE FRENCH WILL EAT FROGS,

snails and the diseased livers of geese, but draw the line at alligators. Frank Buckland invited some guests to dine with him, among them a famous gourmand who particularly praised the soup, but observed that he had not noticed any of the green turtle fat, and he thought it had a slight musky taste. "All alligators have," replied the host, "the cayman especially." The enlightened guests never received any benefit from that dinner. Buckland declares the taste of boa constrictor good and much like veal.

Sir Robert Schomberg found monkey very palatable, though he says before carving it looked disagreeably like roast child.

Quass, the fermented cabbage water of the Russians, is their popular tipple. It is described as resembling a mixture of stale fish and soap-suds in taste, yet, next to beer, it has more votaries than any other fermented beverage. A tallow candle washed down with quass forms a meal that it would be hard to be thankful for. Fifty thousand sharks are captured annually off the coast of Kurachee to supply the Chinese tables with shark fins, 10,000 to 15,000 cwt. of which are annually imported.

In Canton and other Chinese cities rats are sold at the rate of $2 a dozen, and the hind quarters of

DOGS ARE HUNG UP

in the butcher shops alongside of mutton and lambs, but command a higher price. The edible birds' nests of the Chinese are worth twice their weight in silver, the finest variety selling for as high as $30 a pound.

The negroes of the West Indies eat baked snakes and palm worms fried in their own fat, but they cannot be induced to eat stewed rabbits. The dogs most in favor with the Chinese are of the hairless breed, commonly known as the "India rubber dog." The skin is healthy, and the baldness does not seem to depend on any morbid condition. In Mexico parrots are eaten but are rather tough. The Guachos of the Banda Oriental are in the habit of hunting skunks for the sake of their flesh. Turning from these luxuries the dirt-eating Indians attract attention. Dirt is not properly an article of food, although some slovenly cooks seem to think so: it is merely used by the Indians to fill the stomach so as to appease the ravages of hunger.

"M. Palizot relates that in Kaskaskia—a town on the banks of the Mississippi—he was invited to partake of 'Musical Jack' which proved upon investigation to be fried rattlesnakes, decapitated and skinned, and showing a meat as white and firm as a chicken. Musical Jack was a standard dish in that snake-infested region." The attenuated hogs of the American Bottom have long since devoured the juicy rattlesnakes.

THE OCTOPUS

or devil-fish when boiled first and then roasted is eaten in Corsica and esteemed a great delicacy. Perhaps the natives never read Victor Hugo's "Toilers of the Sea." Ostrich eggs contain as much food as two dozen hen eggs, and are considered good food.

In the Pacific Islands and West Indies lizards' eggs are eaten with great gusto. The natives of the Antilles eat alligator eggs, and the eggs of the turtle are popular everywhere, though up to the commencement of the last century turtle was only eaten by the poor of Jamaica. Ants are eaten by various nations. In Brazil they are served with a resinous sauce, and in Africa they are stewed with grease or butter. The East Indians catch them in pits, carefully wash them, and eat them in handfuls like raisins. In Siam a curry of ants' eggs is a costly luxury. It was a king of that country, who, when presented with a preserve of apricots said, "yes, it is very nice, but did you ever eat white ants?" The Ceylonese eat the bees after robbing them of their honey. Caterpillars and spiders are dainties to the African bushman and the Australians are notorious maggot eaters. After they have wound the silk from the cocoon the Chinese eat the chrysalis of the silk-worm. Spiders roasted are a sort of dessert with the New Caledonians. Nor is the use of spiders confined to savages. Reamur tells of a young lady who would

EAT ALL THE SPIDERS

she could catch, and the celebrated Anne Schurmann said they tasted like nuts. Lallemander, the French astronomer, was very fond of them and a German mentioned by Rosel used to spread them on bread instead of butter.

The Viennese are the greatest snail eaters in the world. The town of Ulm, on the Danube, is the principal place where snails are fattened for the market. Those which are fattened on strawberries command the highest prices, while 60,000 lbs. are annually exported from the Isle of Crete. The great African snail, that attains a length of eight inches, is converted into soup. Cockscombs are considered a delicacy in the Paris restaurants, while the Englishman swallows shrimps in their entirety.

CARONDELET JOTTINGS.

Mrs. Grey, wife of Officer James Grey, left last night for Colorado, by advice of her physician.

Water is becoming very scarce here, and the Fire Department is utilized in filling houses.

If any one has lost a dog-collar license, No. 4,138, it can be had by calling upon Joseph Murphy, 7718½ South Main street.

The new horses lately sent here for use of the fire department have been put through a systematic course of training and now whenever an alarm is turned on take their places without trouble and very quickly.

James Jones will abide at the Work House for a period of 106 days. He looked very seedy when taken in, and while not a cent of money was found about him, he had a very fine revolver, all of the barrels loaded, and for this he was fined $50 and costs.

If the South St. Louis Street Railroad Company was as particular in regard to sprinkling the road south of the stable as it is north, the people would probably be more liberal patrons. Of late this end of the road has been in a condition to well nigh suffocate passengers with the dust.

EAST ST. LOUIS.

The St. Louis Channing Avenues and the Nationals will play at the latter's park Sunday afternoon.

The St. Clair Driving Club will give a matinee at the race track to-morrow afternoon, four good races being on the programme.

The colored Baptist Church will give a barbecue near the Stock Yards to-morrow afternoon, to be followed by a festival at their church in the evening.

Coroner Baker held an inquest on Nelson Whitney, an old man who died without medical attendance at East Carondelet last evening. The jury decided he came to his death from general debility.

No action has yet been taken to increase the police force and only one officer was supposed to be on duty last night. That officer, however, was too sick to walk the city, and remained at the station all night. Several citizens have engaged private watchmen to guard their places.

Terrible Case of Desertion.

Mrs. Lizzie Jones, 1318 North Ninth street, who has five children, the oldest 11 years and the youngest 6 weeks of age, has been deserted by her husband. She has nothing to eat and no money and will probably be ejected from the rooms she occupies, not being able to pay the rent.

NORTH ST. LOUIS.

To-night Delta Council, No. 9, Order Chosen Friends, will give a select social at their parlors, Broadway and Salisbury streets.

Officer Gogin, of the Fourth Police District, has been transferred to the Central District, and is now on duty as a special detective at the Union Depot.

Wm. F. Wernse, assignee of Philip Schoez, late proprietor of the general planing mill, Dock and Kennett streets, is to-day selling at public sale all of the machinery.

The Hyde Park Congregational church, Twelfth street and Bremen avenue, which has been closed for the last four weeks for repairs, was reopened last night. After worship the ladies prepared an ice cream festival for the attendants.

The funeral of the late Michael J. Dowling took place this afternoon from the family residence, 3233 North Tenth street, to St. Michael's Church, thence to Calvary Cemetery. Deceased was 73 years of age and one of the earliest settlers in North St. Louis.

BELLEVILLE.

Dr. Saffold returned to-day from Eureka Springs.

Justice Medart married John Rodemeyer and Christain Schopp last evening. The parties reside in Bellville.

Marshall Williams received a telephone message from O'Fallon that a span of yellow horses were stolen this morning.

The First National Bank entered an attachment suit for $29,750 yesterday against Reuss & Co. Mr. Ernied also sued for $3,500.

Mrs. Boedecker of Red Bud has offered a reward of fifty dollars for the return of her husband or information which will locate him. He left the village a few days ago with a blonde milliner who had but recently located in Red Bud. Mrs. Boedecker, in addition to the reward, appeals to the milliner to return her husband to her, as he was very useful in tending to the garden and feeding the chickens, and was indispensable to her in running errands.

Geo. Rasensweig caused a sensation in John Burkner's family, a farmer residing a few miles from Belleville, by informing his wife that her liege lord had a wife and several children in Belleville. Mrs. Burkner, without waiting for further proof of the bigamist charge against her husband indignantly left her home and repaired to Belleville. Mr. Burkner followed, arriving in the city at daylight. He sought the residence of 'Squire Guentz and aroused him from his slumbers and got him to issue a warrant against George Rosensweig for slander. Mr. and Mrs. Burkner afterwards met, and the prospects are a reunion of their marital relations. Mrs. Burkner is somewhat convinced that there was no truth in Rosensweig's statement. Mr. Burkner is a well to-do farmer and has always borne a good reputation, and his friends regret that his happiness should be so trifled with.

A Greedy Sister.

By Telegraph to the Post-Dispatch.

MORRISTOWN, PA., September 14.—At the present term of Court, Alfred S. Acuff is the defendant on charge of forging the name of his mother and Thomas Tyson to a judgement note for $6,000 dated July 27, 1881. Mrs. Acuff, the defendant's mother, lived with her daughter Mrs. Margaret G. Thomas in Philadelphia. In a codicil to her will she bequeathed nearly all of her estate to her daughter. The line of defense is that Mrs. Acuff after making the codicil expressed herself as uneasy, believing she had wronged her son. She is alleged to have said that had she not willed everything to her daughter she would have refused to shelter her. She desired to make reparation but wanted to keep the matter from Mrs. Thomas, and was told that the wrong could be easily righted by giving her son a judgment note. The note alleged to have been given, and which, it is charged by Mrs. Thomas, is a forged signature, was placed on record in the Prothonotary's office. Tyson, whose name appears as a witness to the note, was killed about one year ago. Upon his testimony the case might have been decided. Mr. Acuff is proprietor of the Ambler Park Hotel, on the line of the North Pennsylvania Railroad.

IMPORTANT TO VOTERS.

Department of Election and Registration.

ROOM NO. 16, CITY HALL,
ST. LOUIS, September 11, 1883.

THE attention of voters is called to the fact that nearly all the house numbers and also many of the names of the streets of the city have been changed.

To avoid being stricken off the Poll Books by the Board of Revision, it will be absolutely necessary for each voter to call in person at the office of the Recorder of Voters, at the City Hall, bringing with him a memorandum of his new house number, and the new name of the street on which he resides, so the proper corrections may be made on the Registration Lists.

Voters who neglect this very important matter will in all probability have their names stricken from the Poll Books, as the Revisers will be compelled to take the new house numbers as their guide in canvassing their respective wards.

For the accommodation of those whose employment prevents from calling during the day, the office will be open until 10 o'clock p. m. for the next thirty days.

C. L. HOBLITZELLE,
Recorder of Voters.

EDWARD HANLAN.

The Champion Oarsman in the City and Ready for His Row.

A trimly-built, active handsome man, with bronzed features, brown mustache, stepped up to the register of the Southern about noon to-day, and with a few powerful, free strokes placed Edward Hanlan, Toronto, Canada, over the line. Mr. Hanlan had just arrived from Cincinnati, and he hadn't been in the hotel long before he was joined by his old friend and fellow oarsman, J. A. St. John. These two shining lights on the dancing wave are bosom friends and never fail to make the best of opportunities to commune together. "I don't suppose there are two men in the country that have more fun together than St. John and myself," remarked the Canadian champion, after a warm greeting, and the Modoc smiled assent. The oarsman visited the barber shop, and was accompanied to his room by the reporter, and while he was baring his brown back and muscular, wiry frame to get rid of some of the railroad dust, he chatted freely on aquatic matters.

"Give me the actual inwardness of the Courtney matter," asked the reporter.

"Oh, Courtney! Don't ask me about that. I think that poor fellow had better be let alone. He has no friends and he is practically out of the field. He has been beaten this summer and as he says nothing himself I had better let him alone. I can only deny all charges of bargaining or selling that have been made."

"How was the last race, in which he claimed a foul?"

"That was all right. He was beaten fairly."

"Will you row Laycock?"

"I don't know yet. I have just received a telegram from Mr. Pratt, asking me to meet him at Chicago Sunday, but I replied that I would meet him here. I don't think I ought to go all around the world peddling the championship. It isn't fair, the oarsmen ought to come to me, but if the right kind of inducements are made I will go to Sidney."

"It has been stated that you wouldn't row any more regattas this season, and that you would retire from the field after the season, is that so?"

"I won't row in any more regattas, and intend to retire as soon as I can. There are only one or two men I expect to row. I am willing, however, to row any man in the world for from $1,000 to $10,000. I will do more; I will row any six men on six successive days for $1,000 each, one mile straightaway. I don't believe, though, in traveling over the country meeting any one that chooses to lie in wait for me. I have won seven or eight races this season and only lost one, and that by my own fault. It wears one out."

Mr. Hanlan stated that the next best place lay between Ross and Laycock, and that Gaudaur, his opponent to-morrow, he considered a hard man to row against. From here the oarsman goes to Sodus Point, New York, and afterwards to several other places before returning home.

The row to-morrow between Hanlan and Gaudaur will take place at the mouth of the Missouri at 5 p. m. The David R. Powell has been engaged for the excursion and will leave the foot of Olive street at 2:30 p. m. On Sunday, at the same hour and place, an exhibition row will be given by the Canadian and the Western's four. The race to-morrow, although no money is up, will be a bona fide pull. The oarsman will not leave before Monday night. He was given a lunch at the Southern to-day by Capt. Warner, Mr. Stickney and several others. This afternoon he will rest at Mr. St. John's home, and will drive about the city, and attend the Grand Opera House to-night.

Five Dollars to Chicago and Return.

DASHED TO EARTH.

Frightful Fall of an Æronaut at Pittsburg—Not Injured.

PITTSBURG, PA., September 14.—Prof. H. Warner, the aeronaut, who is under engagement to give balloon ascensions at the Exposition Grounds, had a thrilling experience in mid-air, a part of which was witnessed by at least 10,000 persons. It was the Professor's intention to take a passenger with him on his trip, but it became apparent that only one could go up, and in a few minutes the Professor gave the word, and dangling from the trapeze bar suspended below the basket attached to the netting, he swung off into space. The crowd cheered and the band played, while the athlete went through a series of evolutions on the trapeze bar as he floated higher and higher into the air. Soon a heavy gray cloud suspended over the city hid him from view as the air ship entered it and disappeared. The crowd filed off the grounds, but were soon recalled by cries of

HE'S COMING DOWN. LOOK! LOOK!

Up in space, almost over the heads of the horrified spectators, the balloon was seen careening from side to side, swaying and apparently turning over and over. The trapeze bar was empty and the æronaut could not be seen. The gas-bag looked like an umbrella covered with netting. It fell with terrible rapidity until, when within a few hundred feet of the earth, its descent became less rapid. It landed on a frame dwelling-house on Robinson street, and tumbled into the back yard. Prof. Warner dropped out of the folds of the balloon, struck against a fence, and was stunned for a moment, but springing to his feet, he called to a man, who hastened to his assistance, to hit him on the back. He did so, and then the æronaut stumbled into the house and fell down. Medical aid was summoned and an examination made. Nothing but a few bruises were found, but he had inhaled so much gas that he was insensible for some time. To-night he was resting easier.

"I had the balloon inflated under my personal surpervision," he said, "and considered her all right. When the men let go I shot right up into the air,

HANGING TO THE TRAPEZE BAR

and making my usual revolutions. I went up very rapidly, and in a short time the Exposition grounds were hidden by a heavy cloud. I continued to exercise, for it was quite chilly, until I was about a mile and a quarter above the earth. I paused to rest a minute when I heard a faint sound overhead, and looking up, saw a white smoke pouring out of the gas-bag. I knew what was wrong in an instant and got up into the basket as quick as I could and then climbed into the netting. I never thought about the safety valve but began to throw the sand bags attached to the netting overboard as rapidly as possible, to lighten the fall for I knew what was coming. There was a second of suspense, and then I began to shoot down like a piece of lead, while the balloon swayed terribly. I hung on with feet and hands to the netting, or I should have been thrown off. All at once the envelope collapsed or turned over, and I was thrown right into the center, the envelope forming a parachute.

I WAS NEARLY SUFFOCATED

with the gas, and the balloon was pitching and rolling terribly. I don't know how long I was in coming down. I remember of seeing the city below me, and then I felt a shock and fell into somebody's yard. A man rushed up, and I told him to pound me on the back to get the gas out of my lungs. I was stunned by the fall, but I guess I am all right now." Prof. Warner will make another ascension in a few days, if he is able.

Paying the Piper.

A statement appeared in a morning paper to the effect that the Saloon-keepers' Association had refused to pay the attorneys the full amounts promised in the event of a successful fight, justifying their refusal with the argument that an appeal has been threatened, and the cases are, consequently, not finally disposed of. It was stated that $10,000 was to be set aside for the legal expenses. This amount was to be divided as follows: lows; $2,000 for Herzel, $4,000 for Turner and $4,000 for Claiborne. The reasons for this arrangement of fees does not appear on the face of the contract. Herzel was paid $1,000, Claiborne $2,000 and Turner $2,000, and the statement is made that they have refused to pay the balance.

M. Thoman, Secretary of the Saloon-keepers' Association, furnished a card for publication in which he says that the Association has paid its attorneys in full and holds their receipts for the money, and that all other statements are nonsensical fabrications. Mr. John Morris, on the other hand, said that he had not received all his money but that he did not propose to make any row.

A Rumored Defalcation.

NEW YORK, September 14.—A rumor of the defalcation of from $100,000 to $200,000 in the Water Register's Office Bureau of the Department of Public Works, created some stir around the City Hall to-day. Commissioner of Public Works Thompson says there is but little in it. He was investigating the matter at present and had nothing more to say. The Mayor said Thompson had spoken to him some time ago about one or more persons who had been feloniously collecting water rents around the city, and giving receipts for them in the name of the department, but he did not know how much money was so collected. The city, he said, could not possibly lose a cent, as all unpaid rents are a lien on the property, and are a bar to a clear title in case of sales. All bills and notices of the department contained printed instructions that water rents must only be paid at the Water Register's office. The Mayor said there was no necessity of his ordering an investigation.

THE PROPHETS' TABLEAUX.

The Manner in Which Permits and Seats Can be Obtained.

Arrangements are being rapidly completed for the Veiled Prophets' tableaux to be given at the Olympic Theater, on the evening of Friday of Fair Week. The gentlemen who have the matter in charge state that no expense will be spared to make the evening's entertainment far surpass anything of the kind ever before attempted in the city. The managers of the tableaux want it to be distinctly understood that this will be a public entertainment, to which anybody can secure tickets who complies with the rules laid down. It is not to be an exclusive affair, nor to be confined to the members of the Veiled Prophets. Any person, of respectable character, who wishes to attend, should at once mail an application, stating the number of tickets required, and addressed to "Invitation Committee on Tableaux, P. O. Box 2,707, City." An answer will be returned by the next mail, inclosing a permit to purchase the number of seats required. The only object of this formality is to ensure the fact that tickets shall not fall into the hands of improper or disreputable characters. Gentlemen can secure the permit by making the application. The box sheet will be opened at the Olympic Theater on Monday morning next when the holders of permits can purchase the number of tickets specified at the price of $5 each. No tickets will be sold unless the permit is presented. There will be no discrimination, however. A clear box sheet will be laid before the purchasers, and those who come first will have the choice of any seats in the house. No numbers will be reserved or marked off for members of the order or for anybody else. All applicants will be treated precisely alike and served in the order in which they come. The managers are most emphatic in the declaration that no favors will be shown in the issue of permits or the purchase of tickets, and that no persons of respectable character will be refused, so long as there is room left to accommodate them. Even if every seat should be sold at the price mentioned there would still be no profit. The sole object is to add to the attractions of carnival week. Besides the tableaux, which are six in number, the committee has secured for the concert Remenyi, the renowned violinist, Mrs. Osgood, Madame Rive-King, Miss Minnie Curtis, the Boston Temple Quartette Club, and other attractions of equally high merit. If the Exposition Building and Music Hall are completed in time next year, as is expected, the Veiled Prophets will give their ball and tableaux in that place, and, in addition, a grand concert, at which Patti, Nilsson, Scalchi and all the other celebrities that can be secured will be presented. No expense will be spared to bring the best musical talent in the country to St. Louis for that occasion.

NO REMEDY for coughs and colds is so popular as Harless' Cough Caramels. Delicious to the taste, they soothe and allay irritation at once and afford refreshing sleep. Twenty-five and fifty-cent packages. Drug store Fifth and Market streets.

PUBLIC SCPOOL MATTERS.

Interview with a Mississippi Educator on Negro Education.

The election committee of the School Board will meet on next Tuesday to arrange and consolidate the election precincts, and to select voting places for the election of nine outgoing school directors which will take place on the fourth Tuesday of October.

The regular bills for additional text books, general repairs, and other expenditures which were ordered by the Board on last Tuesday are now ready for payment.

"Any indications of improvement in the schooling of the negro in your State?" asked a Post-Dispatch reporter of Professor Long, of the University of Mississippi, who in company with General Stewart had stepped into the Polytechnic.

"A very large percentage of the Southern negroes are unable to tell the difference between a pumpkin vine and a horse-radish stalk. Terribly illiterate, I assure you," remarked the Professor, who eyed the man of the quill sharply.

"Are you doing much for them in the way of public schools?"

"No. The people of Mississippi are not able to grapple the question alone. We must have the aid of the General Government."

"Have you any plan which you think would prove an efficient one if the Government will aid you?"

"Yes. The first step should be to establish normal schools for the training of colored teachers. Out of this would grow, as a necessary consequence, a system somewhat similar to yours in Missouri, which would belt the entire negro population, but normal schools should be established first of all."

"How about the negro's politics?"

"His politics? Well—augh!—whatever difficulties the question may present of a political nature our educational duties are very clear. But the first step in solving the problem of his future is the educational one."

"What is the general opinion in your section in regard to the Blair bill in aid of the common school system?"

"In my opinion the bill, inasmuch as it provides instruction to all without distinction of race, nativity or condition in life, will show to the rest of the world that America means enlightenment and intelligence. A man may be shipped here a savage, but if we get a chance at him we intend to convert him into at least a respectable item of society."

A COLORADO CASE.

The Title to Coal Lands in Las Animas County in Dispute.

Judge McCrary, of the United States Circuit Court, was occupied yesterday with hearing the arguments of counsel in the case of the United States against the Colorado Coal and Iron Company, the Southern Coal and Iron Company, and some fifty other defendants. The case involves the title to some six thousand acres of valuable coal lands in Las Animas County, Colorado. This land was pre-empted during the years 1873 and 1874 under the homestead laws of the United States and the territory of Colorado. The land was described as agricultural land, but it was several years afterwards that the character of the land was discovered. In 1879 the United States instituted proceedings to set aside the patents to the grantees, and the case has been pending in the courts ever since. On the part of the United States it is insisted that the preemptors were fictitious persons and that the patents were fraudulently issued by collusion of the federal land officers in Colorado. In the meantime the Colorado Coal and Iron Company and the Southern Colorado Coal and Iron Company were organized and became the possessors of the land in question, and these two corporations are, as a matter of fact, the sole defendants in the case. Mr. Westbrook S. Decker of Denver appears as solicitor for the United States and Messrs. L. K. Bass, Woolcott & Milburn and John M. Waldron are the attorneys for the defense. It is probable that the case will occupy the attention of the court for the balance of the week. The morning session to-day was occupied by counsel with the reading of the petition and answer and with various motions. It is expected that this afternoon will be consumed in taking the testimony of experts in handwriting to determine a question raised by the complainant as to the genuineness of the signatures to the applications for the original patents, the complainant insisting that all these signatures were forgeries. The experts who have been summoned for this purpose are Mr. W. D. Eaton, associate editor of the National Republican, of Washington, D. C., and Mr. David Kohr, of the General Land Office, in charge of the Department of Colorado.

SPORTING NEWS.

Baltimore Makes a Show of the Home Team--Notes.

The Baltimores destroyed most of the hopes of St. Louis for the championship in yesterday's game. Barnie's men played a great game, and they defeated the "Coming Champions" by a score of 3 to 0. Emslie, who proved such a picnic for St. Louis on Monday, pitched again, and the Browns could scarcely hit him at all. McGinniss was not batted much. Base hits: Baltimores 8, St. Louis 3. Errors: Baltimores 5, St. Louis 3. Runs earned: None.

The Athletics won the last game at Columbus yesterday by the one-sided score of 11 to 5. Base hits: Athletics 14, Columbus 11. Errors: Athletics 4, Columbus 8. Runs earned: Columbus 4, Athletics 2. Birchall secured a home run.

Cincinnati, at home, defeated the Allegheny Club by a score of 8 to 2. Base hits: Cincinnati 10, Allegheny 5. Errors: Cincinnati 4, Allegheny 7. Runs earned: Cincinnati 3. Home-run: Jones.

The Eclipse Club defeated the Metropolitans at Louisville yesterday by a score of 4 to 1. Base hits: Eclipse 10, Mets 4. Errors: Eclipse 0, Mets 2. Runs earned: Eclipse 2.

The following League games were played yesterday: At Boston—Boston 3, Chicago 1. At Philadelphia—Cleveland 1, Philadelphia 0. At Providence—Providence 9, Detroit 6.

RACING.

The results of the racing at Sheepshead Bay yesterday were as follows: First race—One mile for all ages, was won by Dan K., Lytton second, Edwin A. third. Time, 1:47. The Great Eastern handicap for 3-year olds, one mile and a half, was the event of the day. Day Carter cut up badly at the post, delaying the start. When the flag fell Bessie, lapped by Miss Woodford, was first away. Miss Woodford soon passed Bessie and set a fast pace, with which she won, in an easy gallop, by seven lengths. Referee was second, All Hands Round third. Time, 2:42. Mile and three-quarters—Apollo first, Hartford second, Irish King third. Time, 3:12¼. Three-quarters of a mile—Weasel first, Babcock second, Nimble Foot third. Time, 1:19½. Steeple-chase over the Ironside course—Disturbance first, Abraham second, Pasha third. Time, 5:06½.

It Topeka, Kas., yesterday the trot for the 2:38 class was won by Coupon; the 3:00 class by Baby Mine, and the 2-year-old trot by Alice Almont.

At Wheeling, W. Va., in the 2:25 pace, Belle's Hamill won. The second race was not finished.

THE DRIVING CLUB MATINEE.

The Driving Club will give its usual Saturday afternoon matinee, at the Fair Grounds, to-morrow. The card contains five interesting races. Among them a free-for-all trot for a gold-lined silver pitcher, slop-bowl and goblet, presented by the Bauman Jewelry Company. Mr. J. R. Trask has presented a handsome silver and gold flower-case to be given to the horse trotting nearest to three minutes. The first race will be called at 3 p. m. sharp.

NOTES.

The Metropolitans will arrive here to-morrow and will play here Saturday, Sunday and Tuesday. St. Louis will have to win all three games to have a chance for the championship, so that hard fighting may be looked for.

Cincinnati begins its last series with the Athletics to-morrow, while the Eclipse tackle the Baltimores and the Allegheny club the Columbus.

Fire Engines and the Pageant.

The proposition to call out the Fire Department on Trades' Procession night to take part in the pageant has caused considerable discussion among the insurance men as to the advisability and propriety of so doing.

A POST-DISPATCH reporter called on Mr. Martin Collins, the insurance agent, and asked his opinion on the matter.

"I don't think it ought to be done," said Mr. Collins. "I do not approve of it at all. It would endanger the property of the citizens too much. Why, suppose an accident should happen, and we are always in fear of them on such occasions, what condition would the city be in with our Fire Department in the procession? There is entirely too much at stake to attempt anything of the kind, and then there is no reason in it. It will not add much to the pageant. Everybody knows that we have fire engines. If it was absolutely necessary to the success of the pageant I might say strain a point and let some of the engines come out; but it is not necessary. I don't believe if you should ask Clay Sexton himself that he would say it was right. Of course it might be said that if an alarm should be given the engines could turn off from the rear of the procession, but every one knows the condition of the streets on Veiled Prophets night, and the danger to life and limb that it would occasion would be fearful. I don't believe in risking it. I think the large merchants will agree with me and I know the insurance men do. I scarcely think any other city would permit it, because the city would be responsible for the damage. We cannot afford to do this.

ROOMS are easily obtained through the want columns of the POST-DISPATCH, twenty words for 10 cents.

DIES WHILE DRUNK.

A Man Found Dead on the Streets this Morning.

At 5 o'clock this morning officers Collins and Scully received a report from Lizzie Lewis of 1715 N. Second street to the effect that she had discovered a dead man lying in the gutter in front of 1541 North Second street. The officers visited the scene and found the girl's story confirmed. Investigation disclosed the fact that the body was that of Barney Brumswighe, a German, and owner of a grocery store at the southeast corner of Second and Mullanphy streets. Last night Brumswighe attended a marriage in the rear of 1520 Broadway and became intoxicated to such a degree that it is thought he was unable to care for himself, and fell in the gutter on his face and lay there until he smothered. The deceased had a bruise on his right temple, supposed to be the result of striking a rock in the gutter when he fell. Gerard Krienbaum with whom Brumswighe has been boarding, reports that Brumswighe left his house at 2:30 o'clock this morning to go to the closet, and failed to return. Deceased was 26 years of age, and has no relatives in this city. The body was sent to the Morgue. Twenty-three dollars and seventy-two cents and a watch and a chain were found on the person of the deceased, and was turned over to Gerhard Krienbaum, the boarding-house keeper.

Another Disappearance.

Another case of mysterious disappearance has come to light in North St. Louis. Last Monday Alf. Sawyer, residing at No. 2516½ North Tenth street, left home at an early hour in the morning to go to his work as helper at the Relay Depot in East St. Louis. He failed to return home and has not been seen by any of his friends since Monday. His employer in East St. Louis reports that he worked as usual on Monday and in the evening received his pay. His wife is almost frantic with grief at his absence, and can in no way account for the mystery. She says that she and her husband and two children have always lived happily since their marriage. The mystery becomes even deeper when it is known that Sawyer is a temperance man and industrious. His wife suspects foul play. The missing man is nearly 24 years of age.
